

4. DESCRIPTION OF PROFESSIONAL (NON-STRUCTURAL) ENGINEERING PROJECTS.

Describe in detail, the types of professional engineering projects on which the applicant worked.

Acceptable experience shall be within the definition of the practice as set forth in Section 4 (o) of the Act and shall require the application of technical knowledge and professional (non-structural) engineering principles.

Please keep in mind when you are completing this form that an applicant's acceptable experience is evaluated from information furnished entirely from you. For this reason, it is important that the Board be able to make a clear determination on the applicant's role for each project listed and the type of work they performed under your supervision.

Note: if the project(s) in question include both non-structural and structural experience, only list the non-structural aspects and specify the time accordingly.

Project descriptions must be listed in the below format. Attach additional sheets if necessary.

- 1) Name of project & location of project
- 2) Type of project
- 3) Materials used in the project
- 4) Applicant role in the design of the project
- 5) Name of Engineer of Record for the project
