PURPOSE OF STUDY

This study collects default and foreclosure data from institutions regulated by the Illinois Department of Financial and Professional Regulation (IDFPR), Division of Banking, (DOB) and Division of Financial Institutions, (DFI), for calendar year 2009. Part I of this study collectively identifies and analyzes all of the data submitted to this Office. Part II identifies the number of institutions and the number of reported foreclosures whose rates were 10% to 12% or greater at the time of loan origination; also, the number of institutions and reported loan foreclosures within eighteen months of loan origination. Part III includes a comparative analysis of the foreclosure rate for the Standard Metropolitan Service Area (SMSA) which includes Cook, DuPage, Lake, McHenry, Will, and Kane counties versus the State of Illinois foreclosure rate for those entities regulated by DOB and DFI. The time frame covers calendar years 2009 and 2008. Part IV includes a comparative analysis of dollar amount of loans in portfolio versus dollar amount of foreclosures filed and foreclosure completions for 2009 and 2008. Part V includes an overall analysis of foreclosure reports for 2009 and 2008. Appendix B will identify all foreclosure filings in all Cook County zip-codes for 2009.

The following data was requested from each reporting entity.

- the number of loans serviced by the reporting entity
- the dollar amount of loans serviced by the reporting entity
- the number of loans in default
- the dollar amount of loans in default
- the number of loans foreclosed
- identify any of the loans that foreclosed within 18 months of loan origination
- identify any of the loans foreclosed on had a first lien interest rate of more than 10% or a second lien interest rate of more than 12%
- addresses of all defaults
- addresses of all foreclosure filings and completions
- dates of all foreclosure filings
- dates of all foreclosure completions
- loan amount of all foreclosures
- zip-code, city and county of all foreclosures

While all of the data will be used in analysis, this summary will focus on the foreclosure information, the relationship to the servicing portfolios of Illinois institution's home loans.

Detailed charts identifying total portfolio amount of loans, number of loans, and size of loans versus the foreclosure rates are identified on pages (14 thru 25) for 2009, and on pages (28 thru 39) for 2008. Institutions regulated by the Division of Banking reported 14,095 foreclosures filed between July 1, 2009 thru December 31, 2009, versus 13,992 foreclosures filed between July 1, 2008 thru December 31, 2008. Institutions regulated by the Division of Financial Institutions reported 45 foreclosures filed between July 1, 2009 thru December 31, 2009 and 32 foreclosures filed between January 1, 2009 thru June 30, 2009.

The total number of foreclosures filed from July 1, 2009 thru December 31, 2009 were as follows: State Chartered Thrifts 75; State Chartered Banks 859; State Licensed Mortgagees 13,161 and State Licensed Non-Bank Finance Companies 45. The total numbers of foreclosures closed were as follows: State Chartered Thrifts 22; State Chartered Banks 306, State Licensed Mortgagees 4,003 and State Licensed Non-Bank Finance Companies 16.

The total number of foreclosures reported from July 1, 2009 thru December 31, 2009 with interest rates between 10% to 12% or greater was as follows: State Chartered Thrifts 0; State Chartered Banks 0; State Licensed Mortgagees 280 and State Licensed Non-Bank Finance Companies 11 can be seen of page 40 (Exhibit A). The total amount of foreclosures reported from July 1, 2009 thru December 31, 2009 and foreclosed within eighteen months of loan origination was as follows: State Chartered Thrifts 2; State Chartered Banks 11; State Licensed Mortgagees 76 and State Licensed Non-Bank Finance Companies 0 and can be seen on page 41 (Exhibit B).

On pages 42 and 43 (Exhibits C and D) you will find the 2009 foreclosure filings for the Standard Metropolitan Service Area (SMSA). This data was acquired from the most populous Illinois counties in the State relative to foreclosure filings in these areas. This data was used to extrapolate figures to estimate state wide foreclosure filings for 2009.

ONLINE DEFAULT AND FORECLOSURE REPORT INSTRUCTIONS

GENERAL INSTRUCTIONS

- **The Online Reporting of the Default and Foreclosure Report requires that you have Internet Explorer 5.0 or newer with 128 bit encryption.** Please read these instructions before continuing to the online report. When you log-in enter your UserID and Password (include all zeros).
- **Please provide the items of information on a consolidated financial accounting basis for your institution.** Consolidated financial accounting basis means that you are to include information from all operating subsidiaries, service corporations, etc., using generally accepted accounting principles (GAAP).
- Average quarterly reports – The contemplated calculations for lines 1(A), 1(B), 2(A) and 2(B) calls for loan information, normally shown on quarterly call reports for banks and thrifts or other quarterly reports for licensees, to be averaged. For example, if the dollar amount of 1-4 family conventional loans on your entity's books were \$100,000 on March 31 and \$120,000 on June 30, then the entry on line 1(A) would be \$110,000. What is desired is a number that reflects an average throughout the reporting period rather than activity on a specific date, such as June 30. **Please report dollar amount of loans to the actual whole dollar amount, DO NOT TRUNCATE.** While entering whole dollar amounts, do not use decimals and **DO NOT ROUND TO THOUSANDS. Every field MUST be completed, including the YES/NO questions at the bottom of the first screen or your submission will not be valid.**
- High Risk Home Loan reporting: **Please enter interest rates as a whole number and then decimal (i.e., 5.25% should be entered as 5.25, rather than .0525).**
- **Print out the confirmation page of your online entry and keep a copy for your records and for proof of submission.**

INSTRUCTIONS SPECIFIC TO LINE 1(A)

- Conventional 1-4 family mortgage loans are loans that were not insured by the Veterans Administration (VA), the Farmers Home Administration (FHA) or the United States Department of Housing and Urban Development (HUD).
- Include loans that are first and subordinate liens.
- If it would be difficult to separate the dollar amount of loans on **Illinois** properties from **non-Illinois** properties, it is permissible to estimate the dollar amount of loans that are Illinois properties and place this number on line 1(A).

INSTRUCTIONS SPECIFIC TO LINE 1(B)

- If you are unable to provide the actual number of **Illinois** loans to answer this question, you may estimate the number of **Illinois** loans.

INSTRUCTIONS SPECIFIC TO LINE 3(A) and 3(B)

- If you are unable to provide the actual number and dollar amount of **Illinois** foreclosures filed and foreclosures completed to answer this question, you may estimate the number and dollar amount of Illinois foreclosed loans filed and foreclosed loans completed. If a loan is secured by more than one property, record properties as separate loans (i.e., one loan secured by 2 properties would be shown as 2 loans). **If you filed anything other than "0" for question #3, the property information must be entered online on the appropriate (foreclosure/high risk home loan) screens. If there are more than 20 properties reported, you have the option to submit the property**

information via email using an excel spreadsheet to Tom.Bernard@illinois.gov. Your submission must be in the same format and columns as the spreadsheet found online. Encrypted submissions will NOT be accepted, your Excel spreadsheets can be password protected (only) and your password must be provided in a separate email. The spreadsheets can be downloaded from our website at <http://www.obre.state.il.us/defaultreport/> by using the Default and Foreclosure Excel Spreadsheet link.

- **NOTE:** When you get to the screen asking for the number of high risk home loans for this period, you must enter “0” if you have nothing to file and continue or enter the number of loans filed and proceed to the property information page where you will enter all high risk home loan properties for this period. If you do not follow this instruction, you will not be able to print your confirmation page and your online filing will not be complete.

FORECLOSURE AND HIGH RISK HOME LOAN PROPERTY INFORMATION SUBMISSIONS

- Foreclosure and High Risk Home Loan property information submissions are to be filed on-line or electronically via email for the current reporting period (January 1 – June 30 or July 1 – December 31). If a foreclosure is closed in different reporting period than when it was reported as filed, the closed foreclosure should be reported in the respective reporting period it falls in.

INSTRUCTIONS SPECIFIC TO FORECLOSURE REPORTING

- All information submitted must be complete as indicated on the form online or the system will not accept your property information entry. If you are submitting this information electronically (**20 properties or more**) via email, you must use the same format and columns as the form online. **If a loan is secured by more than one property, record the properties on separate lines listing the total amount of the loan on the first line and \$1 for each additional property secured by the one loan.**

INSTRUCTIONS SPECIFIC TO HIGH RISK HOME LOAN REPORTING

- All information submitted must be complete as indicated on the form online or the system will not accept your property information entry. If you are submitting this information electronically (**20 properties or more**) via email, you must use the same format and columns as the form online. **If a loan is secured by more than one property, record the properties on separate lines listing the total amount of the loan on the first line and \$1 for each additional property secured by the one loan. Please enter interest rates as a whole number and then decimal (i.e., 5.25% should be entered as 5.25, rather than .0525).** On your electronic property information spreadsheet submission, the criteria to report high risk home loans is, at the time of origination, the annual percentage rate exceeds by more than six percentage points in the case of a first lien mortgage, or more than 8 percentage points in the case of a junior mortgage, the yield on U.S. Treasury securities having comparable periods of maturity to the loan, maturity as of the fifteenth day of the month immediately preceding the month in which the application for the loan is received by the lender, or the total points and fees payable by the consumer at or before closing will exceed the greater of 5% of the total loan amount or \$800.
