## **ILLINOIS LOTTERY DRAWING**

The Illinois Lottery will perform a unique lottery in each of the state's 17 BLS regions where licenses are available. After the drawings finish, results will be compiled and sent to IDFPR. Here's how it works:

#### 1. System Check

• Inspect safeguards for integrity and independent auditor begins to complete checklist

#### 2. Pre-Test Draw, Then Verify

- Run the pre draw and verify
- Move to next step if test passes auditor's review

#### 3. Live Draw, Then Verify

- Run the live-draw and verify
- Move to next step if test passes auditor's review

#### 4. Post-Test Draw, Then Verify

- Run the post-draw and verify
- Draw Process is complete if draw passes auditor's review

## **IDFPR VERIFICATION**

IDFPR will then receive the results and match the lottery results to applicant IDs.
