

State of Illinois 2025 ANNUAL CANNABIS REPORT

Compiled by the Cannabis Regulation Oversight Office September 30, 2025

The Illinois Cannabis Regulation and Tax Act (CRTA) requires annual reports from the Illinois Department of Financial and Professional Regulation, the Illinois Department of Agriculture, the Illinois State Police, the Adult Use Cannabis Health Advisory Committee, and the Department of Commerce and Economic Opportunity.

The Compassionate Use of Medical Cannabis Program Act (CUMCPA) requires an annual report from the Illinois Department of Public Health,⁶ which is also included in this report to provide a comprehensive look at Illinois cannabis programs.

Finally, the Department of Revenue (IDOR) and Department of Human Services (DHS) prepared reports to support an understanding of the State's annual cannabis-related and cannabis-funded programs.

The Cannabis Regulation Oversight Office sincerely thanks each agency and team for preparing the reports below.

2025 ANNUAL CANNABIS REPORT

Illinois Department of Financial and Professional Regulation

Vaughn G. Bentley | Cannabis Control Section

SUMMARY

Fiscal Year 2025 was a transformative year for Illinois' cannabis industry, marked by significant advancements and collaborative efforts. We are committed to enhancing the regulatory framework to ensure a responsible and transparent cannabis market and anticipate even greater innovations and improvements that will further empower stakeholders and elevate the standards of our industry.

-Secretary Mario Treto, Jr

Fiscal Year 2025 saw a great deal of change for the cannabis industry. Starting in July 2024, the Joint Committee on Administrative Rules ("JCAR," the legislative committee that reviews rules for all agencies in the State) accepted the most comprehensive rules package for adult use cannabis dispensaries since the program's inception. This would not have been possible without assistance from internal and external stakeholders who met with IDFPR throughout the process to express ideas and concerns. IDFPR also strengthened its network throughout the state and the nation by attending meetings with regulators in other states (such as the annual Cannabis Regulators Association ("CANNRA") meeting), being featured as guests on podcasts, and meeting with licensees at ribbon-cuttings and other industry events. The Cannabis Control Section of IDFPR also expanded the unit's personnel, adding six licensing processors to the team to review licensure applications more quickly, resulting in an average turnaround of less than a week. Finally, IDFPR, with the State's other cannabis agencies launched METRC, a new Seed-To-Sale system to be used by the State, its cannabis businesses, and members of the public. This new system improves traceability and transparency in the tracking process for both retailers and consumers, finalizing the launch at the end of June 2025. Over fiscal year 2025, IDFPR issued operational licenses to 93 dispensaries, the most of any year so far, allowing licenses issued under the social equity application processes to surpass the number of legacy operators.

"Fiscal Year 2025 was a transformative year for Illinois' cannabis industry, marked by significant advancements and collaborative efforts," said **IDFPR Secretary Mario Treto, Jr.**

"We are committed to enhancing the regulatory framework to ensure a responsible and transparent cannabis market and anticipate even greater innovations and improvements that will further empower stakeholders and elevate the standards of our industry."

More improvements are on the horizon in Fiscal Year 2026. IDFPR announced the launch of the Comprehensive Online Regulatory Environment ("CORE") in October 2024, a new online licensing system that streamlines processes for applicants and IDFPR processors alike. This growth has continued, and the cannabis professions will be included in CORE during Phase 3 in Fiscal Year 2026. The cannabis team has already begun working with the CORE team to implement this new system, bringing modernizations to the cannabis industry, and making applications more accessible. Additionally, the Metrc Seed-To-Sale Project will enter its post-launch phase with additional enhancements and improvements for licensees and consumers, increasing transparency into the cannabis supply chain.

FY2025 ACCOMPLISHMENTS

AUGUST 2024

IDFPR attends medical cannabis stakeholder meetings to work on bill to improve patient access.

OCTOBER 2024

DECEMBER 2024

IDFPR personnel attend the CANNRA annual meeting, learning from other states and finding ways to assist.

FFBRUARY 2025

Minding Cents podcast released, featuring Deputy Director of the Cannabis Control Section speaking about the cannabis industry.

APRIL 2025

The Cannabis Control Section begins working with Tyler Tech on developing the new CORE licensing and enforcement system for cannabis dispensaries and personnel.

JUNE 2025

IDFPR and sister agencies launch the new Seed-to-Sale system, Metrc.

JULY 2024

A new, comprehensive Adult Use Rule Package passes JCAR, giving the industry additional guidance and regulatory transparency.

SEPTEMBER 2024

IDFPR signs contract with University of Illinois to assist with the CROO Diversity Study

NOVEMBER 2024

JANUARY 2025

IDFPR begins Metrc conversion kick-off, beginning the process of converting our Seed-to-Sale system.

MARCH 2025

IDFPR issues additional conditional license under the Social Equity Criteria Lottery.

MAY 2025

FY2026 GOALS

IDFPR FY2026 Goals and Essential Projects:

- 1. Continue increasing staffing to better regulate and assist the industry.
- 2. Update the medical and adult use cannabis rules to reflect industry standards and increase efficiency.
- 3. Launch cannabis professions as part of Phase 3 of CORE licensing system.
- 4. Continue Metrc build-out post-launch to bring improvements to traceability in the industry.
- 5. File and pass updated medical and adult use cannabis rules with JCAR.

KEY DATA POINTS

Dispensing Organizations by County and Zip Code

In the charts below, find the number of licenses issued to dispensing organizations by county, or, in counties with greater than 3,000,000 residents, by zip code, as required by Section 55-80(a)(1) of the CRTA. The maps below are interactive online at this <u>Dispensaries by County and Zip Code</u>

Licenses Issued by County

Licenses Issued by Zip Code (Cook County)

Dispensaries by County as of 7/1/2025

Social Equity Applicant- or MBE-Owned Dispensing Organizations

Below are the total number of dispensing organization owners that are Social Equity Applicants or minority persons, women, or persons with disabilities as those terms are defined in the Business Enterprise for Minorities, Women, and Persons with Disabilities Act, as required by Section 55-80(a)(2) of the CRTA.

151 licenses	29 licenses	87 licenses	0 licenses
majority owned by Social Equity Applicants	majority owned by women	majority owned by people of color ⁷	majority owned by persons with disabilities ⁸

Changes in Dispensing Organization License Ownership and Location

In addition to issuing and renewing licenses, the Department also approves changes in ownership and location for all dispensing organizations. The number of licenses issued, transferred, and approved for a change in location in FY2025, FY2024 and FY2023 can be found below.

93 licenses	36 licenses ⁹	2 licenses
issued in FY2025	transferred in FY2025	changed location in FY2025
		I
82 licenses	21 licenses	4 licenses
issued in FY2024	transferred in FY2024	changed location since FY2024
		I
28 licenses	5 licenses	4 licenses
issued in FY2023	transferred in FY2023	changed location in FY2023

⁷ Based on optional, self-reporting data.

⁸ IDFPR does not mandate disclosure of disability status as part of its application process.

⁹ In addition to these 21 license transfers, IDFPR reviewed and approved 21 Management Service Agreements and 29 Conditional Management Service Agreements.

247 awardees	26 awardees ¹⁰	59 awardees ¹¹	0 awardees
majority owned by Social Equity Applicants	majority owned by women	majority owned by people of color	majority owned by persons with disabilities

Dispensing Organization Agent, Agent-in-Charge, and Principal Officer Badging

Below, please find summary-level figures on Department action taken on agent, agent-in-charge, and principal officer badges in FY2025.

9,150	2,827	234	2
total applications and renewals processed	total badges deactivated or expired ¹²	total applications and renewals denied	total badges suspended or revoked

¹⁰ Awardees majority owned by women

¹¹ Majority owned by people of color

¹² This reflects badges that were terminated or expired and not renewed. This does not reflect individuals who were disciplined or otherwise did not qualify for a license.

As shown by the data above, the number of licenses issued continues to grow. The higher number of licenses issued in FY2021 was due to the rapid expansion of adult use cannabis following the passage of the Cannabis Regulation and Tax Act and adult use cannabis becoming legalized in January of 2020.

Dispensing Organization Employee Diversity

30% of employees identified as people of color identified as women or non-binary 50% of employees identified as women identified as disabled

The data above is from the Cannabis Regulation Oversight Officer 2024 Diversity Survey's employee survey, a voluntary survey for people working for cannabis businesses that collects self-identified demographic information. The 2025 Diversity Survey, issued in August and September 2025, will have results posted online later. Race, ethnicity, gender, and disability status are self-identified and simplified to count as "people of color" or "women or non-binary" if any option other than "white" or "male," respectively, or blank, unknown, or "Prefer Not to Answer" responses.

Dispensing Organization Inspections and Disciplinary Action

IDFPR continues to grow its inspection staff to keep up with the increasing number of dispensaries opening.

0	0	0
product recalls issued in FY2023	product recalls issued in FY2024	product recalls issued in FY2025

To date, no mandatory recalls of cannabis or cannabis products have been issued in Illinois.

Total Revenue from Dispensing Organizations by County

Below are the total number of revenues received from dispensing organizations, segregated from revenues received from dispensing organizations under the Compassionate Use of Medical Cannabis Program Act by county, separated by source of revenue, as required by Section 55-80(a)(3) of the CRTA.

*Unallocated amounts include overpayments or credits not allocated to another type of liability.

\$438,226,061

FY2025 total dispensary State tax revenue

IDFPR Tax Rate Recommendations

Under Section 55-80(a)(6) the Department is required to include any recommendations for changing the tax rate applied to sales of adult use cannabis in its annual report. The Department recommends permitting medical patients to purchase medical cannabis product at any licensed dispensary. This policy would benefit medical patients by giving greater access and reducing burdens for purchasing cannabis. It would create a tax rate change for qualified and certified medical patients—they would instead pay medical rather than adult use tax rates when purchasing cannabis at dispensaries other than the original 55 medical dispensaries—but would not impact the medical or adult use tax rates.

Additional time is needed to fully evaluate the implications of the current adult use tax rate and what impact changes may have. The industry is currently experiencing rapid growth with an over 100% increase in the number of dispensaries over the last two years. Due to this rapid growth, any recommendations regarding amendments to the tax rate would be premature.

FUNDING USAGE

The Cannabis Control Section and the Cannabis Regulation Oversight Office receive appropriations from the Cannabis Regulation Fund 912 to regulate adult use cannabis. The Cannabis Control Section also receives funds from the Compassionate Use of Medical Cannabis Fund 075 to regulate medical use cannabis. For FY25, \$19,020,800 was appropriated for the Department from the Cannabis Regulation Fund 912 and \$7,199,200 was appropriated from the Compassionate Use of Medical Cannabis Fund 075.

\$10,324,185	\$	10	,3	2	4,	1	8	5
--------------	----	----	----	---	----	---	---	---

912 appropriation balance unexpended as of June 30, 2025

\$ 4,742,413

075 appropriation balance unexpended as of June 30, 2025

FY2025 Expenditures

For Fiscal Year 2025 the Department was appropriated \$ 26,220,000 for staff and operational costs for the Adult-Use Cannabis and Compassionate Use of Medical Cannabis programs. Spending to date for FY25 as of June 30, 2025, is \$10,497,561.37.

Of this amount, \$8,306,895.50 from 912 Cannabis Regulation Fund and \$2,190,665.87 has been spent from the 075 Compassionate Use of Medical Cannabis Fund. A breakdown of these expenditures is provided below.

FY25 Spending from 912 Fund

Category	Ex	penditures
Salaries	\$	5,422,255.74
Travel	\$	24,600.45
Contracts & Implementation	\$	2,378,789.31

Total	\$ 2,190,	665.87	

UPDATES AND INITIATIVES

Summary of FY2025 Updates

- 1. IDFPR conducted 98 more routine inspections in FY2025 than FY2024, making the industry safer and more transparent.
- 2. IDFPR licensed 93 dispensaries in FY2025, 11 more than in FY2024, further expanding the industry and access to cannabis for consumers.
- 3. IDFPR launched a new Seed-to-Sale tracking system, increasing safety and transparency for consumers, the industry, and regulators.

Summary of FY2025 Initiatives

In FY2025, IDFPR set out to accomplish three goals:

- 1. Finalize and begin implementation of the new Seed-to-Sale System. This system, Metrc, launched in July of 2025 with further improvements planned in FY2026.
- 2. Continue work on implementing a new licensing system. The initial mapping of each cannabis license type under IDFPR's purview has been mapped and is expected to be on the CORE system by end of January 2026.
- 3. Implement the newly promulgated rules for the CRTA. The rules went into effect in July 2024 with different provisions being rolled out throughout FY2025. Updates and improvements to these rules are planned for FY2026 and FY2027 to further modernize the cannabis retail industry.

2025 ANNUAL CANNABIS REPORT

Illinois Department of Agriculture

David Lakeman | Division Manager Division of Cannabis Regulation

SUMMARY

The Illinois Department of Agriculture is the lead regulator for a broad swath of the cannabis industry in Illinois. Beginning with the 21 Cultivation Centers originally licensed under the Compassionate Use of Medical Cannabis Act in 2015, the role of the Department has grown with passage of the Cannabis Regulation and Tax Act in 2019 to include Craft Grow, Infuser, and Transportation licenses, as well as oversight of the Community College Cannabis Vocational Pilot Program.

The Division consists of three bureaus: 1) the Bureau of Licensing and Administration, which is responsible for issuing licenses, administering the Hemp Program, agent registration cards, and other programs; 2) the Bureau of Inspections, which is responsible for the inspectors charged with ensuring a safe and healthy cannabis market in Illinois as well as reviewing blueprints and construction plans; and 3) the Bureau of Cannabis Testing, which has completed its State Cannabis Testing Laboratory as of December 2024. Full operational status for the State laboratory is projected for late 2026. In addition, the Division's Legal and Building & Design Sections are well established.

At the time of this report, the Department has issued licenses for: 21 Adult Use Cultivation Centers, 87 Craft Growers, 55 Infusers, 164 Transporters, and 9 approved Cannabis Community College Vocational Pilot Program participants. Of those licensees, 21 Craft Grow licensees are operational, as well as 16 Infuser licensees, with dozens more of each license type engaged in the buildout of their facilities. The Department has also registered 6 cannabis testing labs.

Of the 87 Craft Grow Licenses, 87 were issued to Social Equity Applicants. Of the 55 infusers, 54 of the licenses were issued to Social Equity Applicants. Of the 164 Transporters, 139 of the licenses were issued to Social Equity Applicants.

FY2025 ACCOMPLISHMENTS

AUGUST 2024

OCTOBER 2024

Facilitated registration of 6,000 new products via digital method; expanded total Illinois cannabis product options by 30%.

DECEMBER 2024

Provided access to digital licenses & vehicle registrations for 341 licensees and testing facilities; cut manual documentation requests by 94%.

FEBRUARY 2025

Implemented the first development of Cannabis Regulation Oversight Platform (CROP) for optimized reporting of centralized information.

APRIL 2025

Added simulation training to the Cannabis Regulator training program

JUNE 2025

Revised industry-wide background check process; projected cost savings for Illinois cannabis workers: \$100,000 per year.

LIMS system fully scoped and began UAT testing for cannabinoid potency.

JULY 2024

Obtained contract with laboratory information management system for laboratory data.

SEPTEMBER 2024

Created an innovative training program for new Cannabis Regulator positions

NOVEMBER 2024

Transitioned 336 licensees to web-based license renewal process: reduced processing time by 75% (1 Day vs 4 Days).

Substantial completion of cannabis testing laboratory infrastructure.

JANUARY 2025

Hired laboratory product review manager to manage laboratory aspects of Metrc and scientific review of new cannabis product candidates.

MARCH 2025

Improved data integrity/confidentiality by migrating processes from paper to digital; leveraged Power-BI for immediate access – cut licensee metrics generation time by 98%.

Completed installation of 9 scientific instruments for the analysis of cannabis, including ICP-MS, GC-MS, GC-TQ, LC-TQ and LC-DAD.

MAY 2025

Authorized licensees to manage agent status for +/- 7,500 workers at facility level: slashed agent-specific management action processing times by 66%.

FY2026 GOALS

IDOA FY2026 Goals and Essential Projects

For Fiscal Year 2026, the primary goal of the Bureau of Cannabis Testing is to fully staff and validate the laboratory, ensuring it operates with peak efficiency and scientific rigor. This will involve not only bringing the team to full capacity but also undertaking the critical task of validating all scientific methods. Once these foundational steps are complete, the lab will work toward obtaining full laboratory accreditation, a key milestone that will formalize its commitment to quality and accuracy. With these elements in place, the team can then confidently begin field sampling and reanalysis of cannabis materials to support quality assurance testing across the state.

The Bureau of Licensing & Administration seeks to achieve the following in FY2026: (1) Migrate all essential Cannabis Licensing functions into the Illinois Department of Agriculture, Division of Cannabis Regulation Portal; (2) Achieve full "Seed-to-Sale" functionality via the new Metrc System; (3) Submit a proposal to revise Title 8, Part 1300, CRTA Administrative Code in order to address high-priority CRTA compliance challenges; (4) Identify and test a Licensing Fee payment solution that would facilitate an increase in the number of "Operational" Craft Growers, Infusers, and Transporters.

The Bureau of Inspections is committed to advancing the development of the Cannabis Regulation Oversight Platform (CROP), enhancing its capabilities to streamline the reporting and consolidation of critical regulatory data. In parallel, we are prioritizing the recruitment of additional personnel to support the oversight of this rapidly expanding industry, with a focus on onboarding through a newly designed, innovative training program. Our efforts also include a renewed strategic emphasis on addressing product inversion, while reinforcing a consistent, standardized framework for compliance and enforcement across all operational levels.

KEY DATA POINTS

Cultivation Centers, Craft Growers, Infusers, and Transporters by County and Zip Code

In the charts below, find the number of licenses issued to cultivation centers, craft growers, infusers, and transporters by license type, and, in counties with more than 3,000,000 residents, by zip code, as required by Section 55-80(b)(1) of the CRTA. This data may also be found here on our website.

Licenses Issued by County

Licenses Issued by Zip Code (Cook County)

Social Equity Applicant- or MBE-Owned Cultivation Centers, Craft Growers, Infusers, and Transporters

Below are the total number of cultivation center, craft grower, infuser, and transporter owners that are Social Equity Applicants or minority persons, women, or persons with disabilities as those terms are defined in the Business Enterprise for Minorities, Women, and Persons with Disabilities Act, as required by Section 55-80(b)(2) of the CRTA.

IDOA Tax Rate Recommendations

Under Section 55-80(b)(10) the Department is required to include any recommendations for changing the tax rate applied to sales of adult use cannabis in its annual report.

No recommendations from IDOA.

FUNDING USAGE

The Division of Cannabis Regulation Fund receives appropriations from the Cannabis Regulation Fund 912 and the Compassionate Use of Medical Cannabis Fund 075. For FY21 and FY22, the Division of Cannabis Regulation was appropriated \$10,461,200. In FY23 and FY24, the Division was appropriated \$26,406,000 from the Cannabis Regulation Fund 912 and the Compassionate Use of Medical Cannabis Fund 075, plus an additional \$2,019,500 from the Industrial Hemp Fund 862 used for the hemp program.

\$10,008,525

0912 appropriation balance unexpended as of June 30, 2025

\$ 5,517,003

0075 appropriation balance unexpended as of June 30, 2025

FY2025 Expenditures

For Fiscal Year 2025 the Department was appropriated \$ 30,684,900 for staff and operational costs for the Adult-Use Cannabis and Compassionate Use of Medical Cannabis programs. Spending to date for FY25 as of June 30, 2025, is \$15,159,372.

Of this amount, \$10,546,375 from 0912 Cannabis Regulation Fund and \$4,612,997 has been spent from the 0075 Compassionate Use of Medical Cannabis Fund.

UPDATES AND INITIATIVES

Summary of FY2025 Updates

- 1. Finalize and begin implementation of the new Seed-to-Sale System. This system, Metrc, launched in July of 2025 with further improvements planned in FY2026.
- 2. Enacted updated USDA Hemp Rules to provide stability and greater safety for the Illinois Industrial Hemp Program
- 3. Continued updates to NLS licensing system to provide better and more efficient program support to licensees and agents.

Summary of FY2025 Initiatives

- 1. In coordination with other agencies, IDOA implemented and went live with the Metrc Seed-to-Sale system, to provide greater transparency and increased efficiency for the cannabis industry in Illinois.
- 2. IDOA continues to work toward full functionality in the Testing Laboratory, with physical construction of the lab space being completed in 2025.
- 3. Completed switchover to NLS modules for product registrations and other processes, leading to greater efficiencies and responsiveness.

2025 ANNUAL CANNABIS REPORT

Illinois State Police

SUMMARY

The Illinois State Police (ISP) provides enforcement, investigation, and processing of all cannabis related criminal offenses. The ISP strives to ensure the safety of the motoring public and community by:

- ✓ Curbing illicit market activities defined as non-tax related sales and possession
- ✓ Enforcing laws related to driving under the influence; and
- ✓ By providing effective inspection and oversight of security related matters in the legal cannabis industry.

The agency, through the Cannabis Control Office (CCO), is involved in the monthly inspection of all facilities operating under the Cannabis Regulation and Tax Act (CRTA) and Compassionate Use of Medical Cannabis Act and conducts physical security plan reviews for new and existing facilities.

FY2025 ACCOMPLISHMENTS

A total of 1,145 under 21 covert details resulted in 4 sales to minors.

Inspectors counted 3,522,883 plant and products during inspections.

Assisted IDOA and IDFPR with 57 pre-construction walk-throughs of dispensaries, craft grows, and infusers.

Conducted 14 legislative bill reviews regarding cannabis, psilocybin and hemp related legislation.

8 security plan reviews conducted on craft growers and infusers.

3 CCO staff attended Physical Security Training through the Federal Law Enforcement Training Center. 7,568 inspections (cultivation center, dispensary, craft grow, infuser, transportation).

665 inspection violations reported to Department of Agriculture (IDOA) and Department of Financial and Professional Regulation (IDFPR).

104 referrals received from ISP and other law enforcement, public/community, and cannabis industry.

104 ISP Troopers and local law enforcement officers received Drug Recognition Expert and Advanced Roadside Impaired Driving Expert training at the ISP Academy in FY25.

8 presentations provided to ISP, local law enforcement, other state agencies, local government or community entities on topics relating to the CCO.

The ISP Investigative Zones seized approximately 16,738,186 grams (approximately 36,901 pounds or 18.5 tons) of illicit cannabis, including 14 cannabis plants, with an estimated street value of \$251,072,790 and recovered 204 firearms in FY25.

FY26 GOALS

- 1. Maintain a continued focus to hire four (4) additional Internal Security Investigators (ISIs) in FY26 to complement the current number of twenty (21) CCO Inspectors, with the goal of maintaining 100% monthly inspection completion per licensed cannabis facility.
- 2. Continue to work jointly with IDFPR to provide recommendations regarding physical security component placement and operational security at all licensed cannabis dispensaries. Continue to complete pre-operational inspections of all IDFPR related cannabis facilities.
- 3. Continue to work alongside the IDOA while conducting mandated physical security reviews on all new craft grower and infuser organizations as well as completing pre-operational inspections of all IDOA related cannabis facilities.
- 4. Provide presentations to ISP, local law enforcement, other state agencies, local government or community entities on topics relating to the CCO.

FY26 ESSENTIAL PROJECTS

- 1. Hire and train new code personnel (e.g. Internal Security Investigators).
- 2. Conduct comprehensive security reviews of all licensed cannabis facilities.
- 3. Implementation of the CCO Records Retention Schedule to comply with the Illinois Secretary of State Records Commission.

FY25 METRICS

ISP is committed to prompt completion of background requests. Furthermore, ISP CCO is committed to developing technological enhancements to improve information sharing and data analysis for all cannabis entities. ISP CCO will continue to strive towards completing monthly inspections on all licensed cannabis entities.

KEY DATA POINTS

Criminal History Record Expungement

Under 20 ILCS 2630/5.2, The Criminal Identification Act, the Illinois State Police (ISP) is tasked with administering the program to expunge or seal records dealing with possession of cannabis in the State of Illinois. The expungement of cannabis offenses commenced in FY21 following the amendatory changes to the Criminal Identification Act that ensued from the passage of the Cannabis Regulation and Tax Act. During FY24 county submission of orders focused on minor cannabis cases ceased, resulting in no changes to reported numbers. Minor cannabis cases are combined with non-cannabis cases as part of the normal expungement order processing. This evolution has impeded future comprehensive recording of orders targeting minor cannabis. Cannabis specific court orders processed will not change until new court orders are received and processed from non-reporting counties.

Prisoner Review Board and Governor's Pardon Process

No new omnibus expungement orders have been received in FY25, from the Governor's Pardon Process. As of June 30, 2023, the Illinois State Police has received and completely processed omnibus orders that included offenses from 64 counties. Bureau of Identification (BOI) staff continue to manually process omnibus orders received. In total, the work done on these omnibus orders is equivalent to processing 11,702 separate court orders.

State's Attorney Vacate Process

No new State's Attorney expungement orders have been received in FY25. As of June 30, 2023, the Illinois State Police has received and completely processed orders from 64 counties. In the aggregate, the work done on these orders is equivalent to processing 11,667 separate court orders.

Automatic Expungement of Minor Cannabis Offense Records

The initial programmatic expungement of minor cannabis non-conviction records that occurred prior to June 19, 2019, from the criminal history record information (CHRI) production database concluded on December 18, 2020. There have been no new programmatic and automatic expungements for FY25. No new omnibus expungement orders have been received in FY25 from the Governor's Pardon Process.

As of June 30, 2023, minor cannabis records associated with 783,975 separate arrest events expunged from the criminal history transcripts. It is important to note that the ISP BOI did not receive any minor cannabis specific orders after FY23, and the automatic expungement process has been completed since FY23.

Cannabis Business Facility Inspections

In FY25, the CCO conducted 7,568 inspections at licensed cannabis facilities statewide (i.e. cultivation centers, dispensaries, craft growers, infusers, and transporters).

7,568 **Inspections**

conducted in FY25 on

258

licensed dispensaries

21

licensed cultivation centers

22

licensed craft growers

17

licensed infusers

143

licensed transporters

21 Inspectors

in FY25

The majority of CCO Inspectors are former law enforcement officers and have completed the mandatory training necessary for this job function. The Inspectors continue to receive other ISP training mandated throughout the year. The CCO approved to add six (6) additional ISIs in FY25. These ISIs will replace the current contractual inspectors. The CCO will continue replacing the current contractual inspectors with additional ISIs in FY26.

665 Violations

identified in FY25

104 referrals

received from ISP, local law enforcement, public/community, and cannabis industry

8

security plans reviewed in

FY25

The CCO worked closely with IDOA on physical security reviews and pre-operational inspections on all new craft grow and infuser operations.

Agent, Agent-in-Charge, and Principal Officer Background Checks ISP conducts background checks of all Agents, Agents-in-Charge, and Principal Officers. Below are listed summary-level figures on agent, agent-in-charge, and principal officer background checks conducted by ISP in FY25.

9,426

total background checks conducted in FY25.

EFFECT OF CANNABIS REGULATION ON LAW ENFORCEMENT RESOURCES

Division of Forensic Services

Drug Chemistry Impact (FY25)

While staffing was not added to the validation quantification team for quantifying THC levels, cost of living increases adjusted the approximate salary from \$105,000 in FY24 to \$109,200 in FY25.

The validation and implementation for the Liquid Chromatography-Triple Quadrupole Mass Spectrometry (LCQQQ) to quantitate THC in plant material and infused products is underway, but is a large, multi-year project. The first phase of the project, Decision Point Analysis validation was completed based on a DEA method and approved for pilot project use in FY24. During the pilot project in FY24, an issue with the internal standard used in the validated method utilized was identified that required an additional validation. This additional validation was conducted in FY25. This validation nears completion and plans for approval, training and implementation are underway. It is anticipated this addendum validation for Decision Point Analysis will be implemented in FY26. This Decision Point Analysis process utilizes GC-MS to screen plant material to identify which samples must move on for further analysis by LCQQQ methods, which is necessary due to the volume of casework. The second phase of the project is the LCQQQ Quantitation of THC in plant material and infused products and it is also progressing. Near the end of FY25, more significant progress was made through collaboration with Agilent and the Department of Agriculture. Method development has neared completion, and the validation is proceeding. It is anticipated that the LCQQQ THC quantitation of THC for Hemp determination of plant material and infused products will be ready for implementation late in FY26 or early FY27.

Toxicology THC Quantitation

Purchase of additional commodities to include, columns, pre-columns, seal-kits, and emerging drug standards at a cost of approximately \$6,000 annually. These are general operating commodities/expenditures to conduct maintenance.

Currently, Forensic Sciences Command (DFS) has four LCQQQ instruments functional for casework (two in Chicago and two in Springfield). In FY25, the four available LCQQQs were utilized for full THC quantitation for the service being provided. FSC Command continues to monitor and evaluate the need to purchase additional instruments.

Scene and Evidence Services Command (SESC)

Illicit cannabis evidence (10,720 lbs.) was transported to Veolia Environmental Services in Sauget, Illinois for destruction in FY25. No CCO funds were expended for this project, however; CCO funding usage is being explored as an option for future large cannabis destructions.

Division of Patrol (DOP)

The ISP Division of Patrol (DOP) strategically reallocated resources to better combat violent crime, disrupt the trafficking of illegal drugs—including cannabis—into Illinois communities, and enhance roadway safety. On January 1, 2023, the DOP implemented a reorganization of patrol operations, transitioning from 21 Districts to 10 Patrol Troops and three Special Operations Groups: Statewide Anti-Violence Enforcement (S.A.V.E.), Highway Interdiction Team (H.I.T.), and the Fatal 4 Team. These specialized teams were established to proactively intercept criminal activity and reduce traffic fatalities across Illinois roadways, ensuring the Division remains adaptable and focused on the safety of the public we serve. The current state of the Division of Patrol, and a core mission of Troopers statewide, continues to be the interdiction of trafficked illegal drugs to create safer communities across Illinois.

The DOP comprises roughly 1,000 sworn officers, with about 10% assigned to Special Operations Groups (SOG) focused on criminal enforcement, traffic safety, and training/mentoring other law enforcement personnel. In FY25, the SOG's Highway Interdiction Team (HIT) seized 10,708,260 grams (23,608 lbs.) of illicit-market cannabis—an increase of 73.5% over FY24—demonstrating the team's significant impact on reducing illegal drug activity in Illinois. From a Divisional perspective, in FY25, the entire Division of Patrol seized approximately 15,900,440 grams of cannabis—an alarming indication of the amount of illicit-market cannabis is prevalent in Illinois communities.

The regulation of cannabis in Illinois continues to impact ISP operations, particularly in the use of canines for criminal enforcement. Following decriminalization on January 1, 2020, ISP temporarily paused imprinting new canines with the odor of cannabis to evaluate how evolving legislation and court rulings would affect their deployment. This proactive approach prevented the need to replace large numbers of canines at once and preserved flexibility should future rulings favor or restrict cannabis-imprinted canines. Today, ISP supports a canine section of nearly 70 canines—some imprinted with cannabis and some not—ensuring the Department remains adaptable while closely monitoring the legal landscape.

Changes in cannabis legislation and judicial interpretation continue to present significant challenges to the Division of Patrol's ability to effectively combat drug trafficking. Court decisions in recent years, including *People v. Stribling* (2022), *People v. Redmond* (2022), and *People v. Molina* (2022), underscore how differing interpretations of whether cannabis odor provides probable cause can directly affect Troopers' enforcement authority. These shifting legal standards highlight the ongoing risk: unfavorable changes in legislation or precedent could severely restrict the Division's ability to utilize canine teams and odor detection, diminishing one of the most effective tools for intercepting trafficked drugs. Such outcomes would reduce Troopers' capacity to proactively enforce the law and increase the threat of dangerous drugs entering Illinois communities.

In FY25, the DOP conducted a thorough analysis of the potential public safety impacts of Senate Bill 42 (SB42), filed in January 2025 in the Illinois 104th General Assembly. SB42 proposed to amend the Illinois Vehicle Code by removing the requirement that cannabis be in an odor-proof container and prohibiting law enforcement from stopping, detaining, or searching a vehicle solely based on the odor of cannabis.

Had SB42 gained traction and passed, it would have significantly limited Troopers' ability to detect cannabis, severely impacting efforts to interdict trafficked drugs and address cannabis-impaired driving. Such a change would have posed serious risks to public safety for Illinois residents and

travelers alike. The Division remains vigilant for legislative threats like SB42 that could undermine enforcement authority and compromise overall community safety.

Division of Criminal Investigation (DCI)

The Division of Criminal Investigation's 22 Metropolitan Enforcement Groups (MEGs) and Task Forces (TFs) service 73 of the 102 Illinois Counties, offering drug enforcement to local, federal, and other state agencies. Local law enforcement partnerships with the MEGs and TF account for 134 local officers assigned to these units. In FY25, ISP MEGs and Task Forces in the DCI Zones seized a combined total of 16,738,186 grams of illicit cannabis, which has a total street value of approximately \$251,072,790 (see below). In addition, 14 illicit cannabis plants were seized, which at harvest, can yield up to one pound of cannabis "buds" per plant. Additionally, 204 illegally possessed firearms were seized during investigations relating to cannabis trafficking where felony arrests were made, an increase of 88% firearms seized from FY24. To protect criminal enterprise assets, including their illicit cannabis, traffickers often arm themselves with firearms which poses a significant threat to the safety of Illinois citizens.

The Illinois State Police, MEGS and TFs participate in the statewide deflection program with Treatment Alternatives for Safe Communities (TASC). The MEGs and TFs work with TASC and area service providers to coordinate social services for individuals as an alternative to entering the criminal justice system when appropriate. During the past year, there were over 390 TASC Associated Criminal Drug Deflections by the MEGs and TFs.

Zone 1

Will County Cooperative Police Assistance Team (WCPAT), DuPage Metropolitan Enforcement Group (DUMEG), Lake County Metropolitan Group (LCMEG), Narcotics & Currency Interdiction Team (NARCINT) and North Central Narcotics Task Force (NCNTF), Joliet Metropolitan Area Narcotics Squad (JMANS), Kendall County Police Assistance Team (KCPAT) and Kankakee Metropolitan Enforcement (KAMEG)

Zone 1 narcotics had the following illicit cannabis seizures which have a total street value of approximately \$149,785,095.

WCPAT - 67,583 grams

DUMEG - 81,173 grams

LCMEG - 3,236,041 grams

NARCINT - 4,967,589 grams

NCNTF - 187,570 grams

JMANS - 1,323,963 grams

KCPAT - 17,389 grams

KAMEG - 104,365 grams

Zone 2

Blackhawk Area Task Force (BATF), Quad City MEG (QCMEG), State Line Area Narcotics Team (SLANT)

Zone 2 narcotics had the following illicit cannabis seizures which have a total street value of approximately \$15,932,715.

BATF - 902,255 grams SLANT - 93,166 grams QCMEG - 66,760 grams

Zone 4

Peoria Metropolitan Enforcement Group (PMEG), Central Illinois Enforcement Group (CIEG) and West Central Illinois Task Force (WCITF)

Zone 4 narcotics had the following illicit cannabis seizures which have a total street value of approximately \$43,242,330.

PMEG – 14,141 grams CIEG – 2,860,532 grams WCITF – 8, 149 grams

Zone 5

East Central Illinois Task Force (ECITF), Vermillion Metropolitan Enforcement Group (VMEG), and Task Force 6

Zone 5 narcotics had the following illicit cannabis seizures which have a total street value of approximately \$7,984,230.

ECITF – 3960 grams VMEG – 216,314 grams Task Force 6 – 312,008 grams

Zone 6

Metropolitan Enforcement Group of Southern Illinois (MEGSI), and South-Central Illinois Drug Task Force (SCIDTF)

Zone 6 narcotics had the following illicit cannabis seizures which have a total street value of approximately \$32,260,725.

MEGSI – 2,017,710 grams SCIDTF – 133,005 grams

Zone 7

Southern Illinois Enforcement Group (SIEG), and Southern Illinois Drug Task Force (SIDTF)

Zone 7 narcotics had the following illicit cannabis seizures which have a total street value of approximately \$1,862,535.

SIEG – 6,474 grams SIDTF – 117,695 grams

Zone 8

Southeastern Illinois Drug Task Force (SEIDTF)

Zone 8 narcotics had the following illicit cannabis seizures which have a total street value of approximately \$5,160.

SEIDTF - 344 grams

The Drug Enforcement Administration (DEA) strives to halt the illicit cannabis cultivation in the U.S., having initiated the Domestic Cannabis Eradication/Suppression Program (DCE/SP). The DCE/SP is the only nationwide law enforcement program that exclusively targets Drug Trafficking Organizations (DTO) involved in illegal cannabis cultivation. In 2024 DCE/SP was responsible for the eradication of 3,627,762 illegally cultivated outdoor cannabis plants and 1,654,027 cultivated indoor cannabis plants. The program also removed 3,125 weapons from cannabis cultivators.

Chicago is a hub and distribution point for drug trafficking in the Midwest due to its multi-faceted transportation infrastructure and its central geographic location. High potency domestically grown cannabis from other states is smuggled into the Chicago HIDTA region via trucks, personal vehicles, and parcels and sold in the booming illicit market in Illinois. Chicago-based gangs that dominate the regional retail market also have a significant presence throughout the Midwest and across the nation.

Illinois law currently requires Illinois cannabis dispensaries to sell cannabis obtained solely from an authorized Illinois cultivation center or craft grower. However, the illicit cannabis marketplace remains unregulated. At the street level, it is difficult for local law enforcement officers to determine the actual source of cannabis in the possession of consumers.

According to the Zone's Task Forces and MEG Units, the average cost of illicit cannabis flower per ounce is \$200 and \$2,500 per pound.

The following represents illicit cannabis seizure highlights by ISP/DCI Zone Narcotics units in Illinois:

- July 2024 ISP Troopers and VMEG seized 483 pounds of illicit cannabis in a pickup truck pulling a trailer on Interstate 74 in Vermillion County. 1 suspect was arrested.
- August 2024 ISP Troopers and MEGSI seized 358 pounds of illicit cannabis and 36 pounds of illicit cannabis wax in a truck traveling on Interstate 64 in Clinton County. 1 suspect from Oregon was arrested.
- September 2024 SIEG / SIDTF seized 59 pounds of cannabis and 7 pounds of cannabis wax in a residence in Jackson County.
- October 2024 ISP Troopers and KCPAT seized 3,000 pounds of illicit cannabis in a box truck traveling on Interstate 80. 1 subject was arrested.
- November 2024 DuMEG and NCNTF seized 112 pounds of cannabis and over 14 pounds of THC edibles during an investigation in Cook County.
- December 2024 MEGSI seized over 60 pounds of cannabis, during an investigation in St. Clair County.
- January 2025 TF6 seized over 3 pounds of illicit cannabis from a residence in McLean County. 1 suspect was charged.
- February 2025 QCMEG seized 6 pounds of illicit cannabis from a residence in Rock Island County during an investigation.

- April 2025 NARCINT 57 pounds of cannabis during an investigation at O'Hare Airport.
- May 2025 ISP Troopers and SIDTF seized 86 pounds of illicit cannabis on Interstate 57 in Franklin County. 2 subjects were arrested.
- June 2025 Zone 1 NARCINT agents seized 84 pounds of illicit cannabis in Will County.

IMPACT OF CANNABIS REGULATION ON HIGHWAY AND WATERWAY SAFETY

Division of Patrol

In FY25, the ISP Division of Patrol strategically reallocated resources statewide to address areas with heightened violent crime and criminal activity. As a result, the Division of Patrol filed 424 DUI Cannabis related charges in FY25 and reported 15 crashes involving cannabis, (or having a cannabis nexus, and 7 medical cannabis charges). The table below details additional cannabis-related offenses, including the number of charges and arrests for each.

Note: All statistics provided are Illinois State Police Statistics only and are not representative of all law enforcement agencies statewide.

Offense	FY25
Cannabis Trafficking	50
Manufacture/Delivery	149
Possession	863
DUI Cannabis	5
DUI Combination with Cannabis Nexus	419
Crashes Involving Cannabis (Cannabis Nexus)	15
Medical Cannabis Charges	7
Unlawful Possession in Vehicle	523

The chart below represents the total number of DUI drugs in FY25 including other illicit compounds or combination thereof. Please see the Adult Use Cannabis Health Advisory Committee's FY25 report for statewide arrest numbers that include local law enforcement.

EMERGING METHODS TO TEST FOR PRESENCE OF THC IN BODILY FLUIDS

Division of Forensic Services

FY25 - The Division of Forensic Services (DFS) has methods available for detecting the metabolites for delta-9-tetrahydrocannabinol in bodily fluids, including, without limitation blood and urine. DFS continued the use of established methods and procedures to provide the toxicological services of detecting Delta-9 Carboxy THC (THC metabolite) in blood and urine and quantitating Delta-9 THC in blood. In FY25, all four LCQQQ instruments were online and providing full-service quantitation. DFS continues to monitor and evaluate the need to purchase additional instruments.

Division of the Academy and Training

A continued obstacle officers across the state continue to face is obtaining blood draws for Driving Under the Influence (DUI) arrests or other instances where a blood sample is needed as evidence. Often, area hospitals refuse to draw blood for officers, or officers wait several hours to obtain a blood sample. The statutory two-hour time frame to obtain an evidentiary blood draw sample (625 ILCS 5/11-501(a)(7)) causes significant issues when prosecuting drivers for DUI cannabis.

To minimize this obstacle, Illinois State Police (ISP) Director Brendan F. Kelly approved the implementation of an ISP Phlebotomy Pilot Program through a partnership with the Forensic Phlebotomy training program at Richland Community College in Decatur. The goal of the pilot program is to determine the feasibility of a statewide program.

In May 2025, seven (7) ISP Troopers graduated from the Richland Community College Forensic Phlebotomy Program and were successfully trained as Law Enforcement Phlebotomists. Their training consisted of four weeks of online training, three days of classroom training, and one week of clinicals, which included one hundred (100) successful blood draws. Currently, the launch of the ISP Phlebotomy Pilot Program is pending final procedural approvals.

EFFICACY OF EXISTING DUI LAWS

Division of Academy and Training

Illinois Compiled Statute 625 ILCS 5/11-501(a)(7) states "A person shall not drive or be in actual physical control of any vehicle within this State while the person has, within 2 hours of driving or being in actual physical control of a vehicle, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection (a) of Section 11-501.2 of this code." Paragraph 6 of subsection (a) of Section 11-501.2 states "Tetrahydrocannabinol concentration means either 5 nanograms or more of delta-9-tetrahydrocannabinol per milliliter of whole blood or 10 nanograms or more of delta-9-tetrahydrocannabinol per milliliter of other bodily substances.

The above section is the only section in the Driving Under the Influence statute that places a time restriction on an officer to obtain an evidentiary sample. Currently in Illinois, officers must take a suspect to the hospital to get a blood sample. This law forces officers to consider how far away the hospital is from the arrest location and to try to guess how busy the hospital will be when they arrive. Officers then must rely on the willingness of the hospital staff to draw the blood within the time frame. The inability of officers to get a sample within this two-hour time restricts officers from securing sufficient evidence for a successful prosecution.

There is a surge in hemp-derived products (for example, delta-8-tetrahydrocannabinol and delta-10-tetrahydrocannabinol) that do not fall under the Cannabis Regulation and Tax Act. This means they can be sold outside the regulated market and inspected dispensaries, while still having the same impairing effects as delta-9-tetrahydrocannabinol. By only testing for delta-9-tetrahydrocannabinol in the blood, all the different byproducts from these other types of cannabis are not tested for.

According to research conducted by Dr. M.A. Huestis in *Cannabis (Marijuana) - Effects on Human Behavior and Performance*, most cannabis has left the bloodstream within two hours of ingestion. Doctor Huestis' research also showed that by their admission, subjects in this study were still impaired for a considerable amount of time after all cannabis had left the bloodstream. This research shows that there is no correlation between the amount of cannabis in the bloodstream and the impairment of an individual.

Research has shown that a person can still be impaired after two hours. Paragraph 6 of subsection (a) of Section 11-501.2 should be repealed because research shows no correlation between the amount of delta-9-tetrahydrocannabinol in a person's blood compared to the impairment a person exhibits. At a minimum, the reference to delta-9-tetrahydrocannabinol should be removed and replaced with "any cannabis metabolite."

The ISP, Alcohol and Substance Testing Section (ASTS) has submitted a legislative proposal for the instatement of a Zero Tolerance Law for Cannabis. Currently, cannabis is illegal to possess in the state of Illinois for anyone younger than 21 years of age. The submitted legislative proposal suggests mirroring the Cannabis Zero Tolerance Law to the Alcohol Zero Tolerance Law. Currently, a subject under 21 years of age cannot legally drive a vehicle with a blood alcohol content over .000. The ASTS proposal suggests a subject under 21 years of age cannot drive a vehicle with any amount of cannabis in their system.

Advanced Roadside Impaired Driving Enforcement (ARIDE)

The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.

Law enforcement officers are trained to observe, identify, and articulate the signs of impairment related to drugs, alcohol, or a combination of both, to reduce the number of impaired drivers and impaired driving related traffic collisions.

- The ISP ASTS has conducted seven (7) ARIDE classes statewide during FY25.
- A total of eighty-eight (88) ISP Troopers received ARIDE training during FY25.
- The ASTS continues the instruction of ARIDE classes at the ISP Academy and statewide.

Drug Recognition Expert (DRE)

A Drug Recognition Expert or Drug Recognition Evaluator (DRE) is a police officer trained to recognize impairment in drivers under the influence of drugs other than, or in addition to, alcohol. The IACP coordinates the International Drug Evaluation and Classification (DEC) Program with support from the NHTSA of the U.S. Department of Transportation. In addition to officers who are certified as DREs, the DEC Program educates prosecutors and toxicologists on the DRE process and the drug categories.

- The ISP ASTS conducted a DRE School during FY25. Nine (9) ISP Troopers and seven (7) local law enforcement officers statewide completed the training.
- The ISP ASTS will be conducting a DRE School in January of 2026.
- The ISP currently has 28 Troopers certified throughout the State.

Division of Patrol

The ISP continues to train officers to recognize and enforce impairment to protect the motoring public and prevent tragedies, including serious injuries and fatalities. The effectiveness of DUI laws depends on officers' ability to use on-scene observations to identify illegal activity and take appropriate investigative steps. Retaining the authority to consider the odor of cannabis and evidence of unlawfully transported cannabis inside a vehicle as probable cause is critical. These tools allow officers to assess impairment and criminal activity—Similar to enforcement for illegally transported alcohol—ensuring the safety of all Illinois roadway users. Additional measures, such as a zero-tolerance cannabis provision for minors and mandatory education on the dangers of cannabis, would further support roadway safety.

FUNDING USAGE

Summary

The appropriations of funds for the CCO in FY25 were: Medical Use - \$ 2,200,000 Adult Use - \$ 5,000,000

\$1,257,955

Medical Use balance as of June 30, 2025

\$1,412,484

Adult Use balance as of June 30, 2025

FY25 Expenditures

Medical Use

Appropriation Amount: \$2,200,000 Expenditures: \$942,045

Adult Use

Appropriation Amount: \$5,000,000 Expenditures: \$3,587,516

UPDATES AND INITIATIVES

Summary of FY25 Legislation

• No cannabis or hemp legislation was enacted during FY25.

.

EMERGING TRENDS AND ISSUES

Law enforcement and health professionals in the State and nationwide continue to grapple with the proliferation of, and associated legal issues with, the sales of synthesized THC products derived from hemp (CBD). The products are often sold containing "Delta-8," "THC-0," or other THC variants. The products are marketed as "Hemp-based" or CBD but are often only CBD or hemp in name. To produce the products, delta-9-tetrahydrocannabinol (THC) has been artificially synthesized from a CBD product and sprayed, or otherwise incorporated, back onto another (usually legal) hemp, food, vape or other product.

In Illinois, industrial hemp-derived CBD products can be cultivated and marketed under the state's agricultural hemp program. As a result, CBD may be accessible in many places, including corner stores and grocery markets. The state and federal government have, as of now, done very little to regulate the wide array of hemp and CBD products available for sale. According to the DEA, the synthesizing of THC is illegal under federal law. Under state law the synthesized product is categorized as "cannabis" and therefore should be controlled under, and subject to the restrictions of, the CRTA.

Illinois law enforcement has struggled in convincing State's Attorneys to move forward with prosecution because of the product's initial association with hemp/CBD which, since it is legal, leads the State's Attorneys to be reluctant to prosecute. The ISP recommends legislation be enacted which would regulate CBD and hemp products to bring them in line with federal law and the CRTA.

Law enforcement is also seeing a rise in the sale of high THC-A content hemp flower which has boomed onto the market because of confusion with, or purposeful obfuscation of, federal hemp legislation. These products often have THC-A contents as high or higher than cannabis flower sold in licensed cannabis dispensaries in the State. Purveyors of THC-A products often claim they are compliant with federal hemp legislation; however, the DEA recently clarified their stance on federal legislation confirming that in determining Total THC content of a product, THC-A must be included in that calculation. Similarly, to other hemp products, Illinois law enforcement has struggled in securing prosecution of THC-A sales violations.

2025 ANNUAL CANNABIS REPORT

Illinois Department of Public Health

Melissa Stalets & Janette Candido | Division of Medical Cannabis

Medical Cannabis Patient Program

SUMMARY

The Medical Cannabis and Opioid Alternative programs, overseen by the Illinois Department of Public Health, assist the most vulnerable citizens suffering debilitating medical conditions to receive support and access to cannabis for medical use and pain relief.

In fiscal year 2025, the Illinois Department of Public Health (IDPH) Division of Medical Cannabis continued to modernize the way we manage information and communicate to the public. As a part of this modernization, IDPH launched the new Medical Cannabis Patient Registry System in April 2025. IDPH has also updated our website and now includes guides on use of the new system. Internal staff and local health department staff were also trained on the new system's functions, capabilities, and processes.

IDPH continues to focus on building capacity with the hiring of additional staff needed to meet the demands of processing and customer service. Two front line staff positions were filled, including one that is Spanish speaking to improve customer care. A senior processor was also hired to help improve the quality of processing. Hiring processes were started for a new nurse manager, an additional Spanish-speaking processor, and an administrative support staff.

In addition, IDPH has continued to work with local health departments to assist patients and caregivers with applications for Medical Cannabis Patient Registry Cards.

The Medical Cannabis Advisory Board (MCAB) convened once in FY25. An MCAB Chair and Vice Chair were appointed by the Governor and subsequently provided introductions and discussed processes for future MCAB meetings and agenda. Four new qualifying conditions were recommended by the MCAB in FY2024 and were approved and implemented in FY25. The additional conditions went live in the system in January of 2025.

Finally, IDPH implemented a new call center that allows recording and quality checks to improve customer service.

FY2025 ACCOMPLISHMENTS

AUGUST 2024

4 additional qualifying debilitating conditions approved by IDPH Director.

NOVEMBER 2024

Advisory Board Chair and Vice Chair appointed.

FEBRUARY 2025

Staff training for the new system conducted.

New unit call center implemented.

APRIL 2025

New Medical Cannabis Patient Registry System launched. Website updated; user guides updated; communications sent. Local Health Department training conducted.

July 2024

Spanish-speaking frontline staff started.

OCTOBER 2024

Additional processor started.

JANUARY 2025

4 additional qualifying conditions implemented.

MARCH 2025

Webpage update finalized. New system launch date was announced.

JUNE 2025

New frontline staff started. New senior processor started.

FY2026 GOALS

For the fiscal year 2026 the Division of Medical Cannabis plans to focus on improvement in the quality of consumer engagement and access for participants. Strategies for this fiscal year include initiation of an education and training program for both internal and external stakeholders. This entails providing staff additional education and training, ensuring robust quality assurance, improving customer experience, and enhancing processes and procedures in the unit. A priority for customer experience improvement will be to address issues encountered by clients in the new registry system and provide resolution. To improve the quality of processing and customer service, IDPH will update its quality assurance program. Analyses of that program will inform updates to processes and procedures. This approach will also lead to additional strategies at IDPH beyond the fiscal year to improve the overall program.

IDPH FY26 Essential Projects

- 1. Launch partnership with stakeholders in medical cannabis education and training.
- 2. Review and enhance the Medical Cannabis Program quality assurance plan.
- 3. Implement education and training program.

IDPH FY25 Metrics

Number of established partnerships with stakeholders for education and training.

education and training outreach sessions were provided for partners and stakeholders.

5

Decrease in the number of calls and correspondence received that are

determined to be due

to system issues.

KEY DATA POINTS

Program Overview

In August 2013, Illinois became the 20th state to authorize a program for the cultivation and dispensing of cannabis for medical purposes. The statewide Medical Cannabis Patient Registry Program (MCPP) allows patients diagnosed with a qualifying condition to access medical cannabis. IDPH manages the registry by receiving and processing applications and issuing registry cards to Illinois residents meeting program requirements.

To qualify for participation in MCPP, patients must obtain certification from a registered health care professional (HCP) specifying their debilitating condition. An HCP is a physician, advanced practice registered nurse, or physician assistant that is licensed in Illinois and has registered to participate in IDPH's Medical Cannabis Programs. Patients may elect to designate up to three caregivers. A caregiver must be at least 21 years of age and is authorized, on the patient's behalf, to possess, obtain from a certified dispensary, dispense, and assist in the administration of medical cannabis.

Patients may opt to apply for registration in MCPP for one year, two years, or three years. If a patient selects registration for less than three years, they may extend their registration by completing the required documentation. At the end of every three-year period, qualifying patients must apply for a new registry identification card.

Qualifying patients under 18 years of age may be registered in MCPP by a designated caregiver who is a parent or legal guardian. The parent or legal guardian must submit written certification from an HCP specifying the debilitating condition as well as certification from an HCP indicating that a review of the patient's records has been conducted. Two caregivers, in addition to the custodial parent or legal guardian, may be designated.

Application resources, new and existing patient instructions, health care providers, contact information, laws, rules, and referral sources are available online (<u>Medical Cannabis Patient Registry Program</u>).

In August 2018, Public Act 100-1114, the <u>Alternative to Opioids Act of 2018</u>, was signed, making changes to the Compassionate Use of Medical Cannabis Pilot Program Act. The public act created the Opioid Alternative Patient Program (OAPP), which allows access to medical cannabis for individuals who have a prescription for opioids or have a condition for which an opioid otherwise would be prescribed, as certified by a registered health care provider.

On January 31, 2019, IDPH officially launched the OAPP. Qualifying patients for OAPP must be at least 21 years old and be an Illinois resident. Licensed physicians must certify the qualifying patients have a medical condition for which an opioid has been or could be prescribed based on generally accepted standards of care. Qualifying patients receive a 90-day registration and must recertify for additional 90-day periods.

Number of applications and renewals filed for registry identification cards/registrations.

- IDPH has approved **381,621** applications for qualifying patients since it began accepting applications for MCPP on September 2, 2014.
- The number of active patients in MCPP as of June 30, 2025, was **121,680**, including 187 minors.¹³
- 15,277 applications were renewed, and 7,068 were extended in FY25.
- The total number of initial applications submitted to MCPP in FY25 was 25,765.
- In FY25, there were 220 caregivers for 187 minor MCPP patients and 15,621 caregivers for 13,706 adult MCPP patients.
- The highest percentage of active patients in FY25 were individuals between 41 and 50 years of age.
- Among registered MCPP patients in FY25, a higher percentage reported a gender of male than female (53% vs. 47%).

¹³ Active means a patient has a non-expired, non-revoked medical card. Due to the update to the data management system this year's data also contains information on active cardholders as well as those in the renewal or extension process.

IDPH | Annual Cannabis Report 2025 September 30, 2025 On July 15, 2021, Gov. JB Pritzker signed Pub. Act 102-0098, which removed the requirement that a medical cannabis patient and/or caregiver select a single dispensary and that patients report dispensary information to IDPH.

Nature of the debilitating medical conditions of qualifying patients

The top five most common debilitating conditions submitted in certifications for MCPP for FY21 to FY25 were chronic pain, post-traumatic stress disorder (PTSD), migraines, osteoarthritis, and cancer.

NOTE: Certifications may reflect more than one qualifying condition. Due to the update to the data management system this year's data also contains information on active cardholders as well as those in the renewal or extension process.

Table 1

Nature of the debilitating medical conditions of the qualifying patients under MCPP in FY2025	Number	Percentage
Chronic pain	54,381	32.75%
Post-Traumatic Stress Disorder (PTSD)	25,167	15.16%
Migraines	15,908	9.58%
Osteoarthritis	12,825	7.72%
Cancer	7,563	4.55%
Severe fibromyalgia	5,967	3.59%
Neuropathy	5,920	3.57%
Irritable bowel syndrome	5,810	3.50%
Spinal cord disease (including but not limited to arachnoiditis)	4,693	2.83%
Rheumatoid arthritis	3,546	2.14%
Traumatic brain injury	2,266	1.36%
Post-Concussion Syndrome	2,243	1.35%

2025 ANNUAL CANNABIS REPORT

Illinois Department of Revenue

Kendra Banning | Taxpayer Services

SUMMARY

In FY2025, IDOR collected \$474.1 million in tax and assessment payments from adult use cannabis cultivators, craft growers and dispensaries.

The Illinois Department of Revenue (IDOR) is responsible for the administration and collection of cannabis taxes, and providing accurate, timely, and reliable funding and information to state and local constituents. Specific to cannabis taxes, these responsibilities generally include:

- Registering with IDOR all licensed cannabis cultivators, craft growers, and dispensaries
- Providing for the filing and payment of cannabis-related taxes
- Remitting revenues collected to the state Comptroller.
- Collecting and allocating funds to local governments
- Tracking revenues, expenditures, and transfers to and from the Cannabis Regulation Fund

In FY2025, **IDOR collected \$474.1 million** in tax and assessment payments from adult use cannabis cultivators, craft growers and dispensaries, and disbursed \$150.8 million in cannabis revenues to local governments.

FY2025 ACCOMPLISHMENTS

JULY 2024

Municipal Cannabis Retailers' Occupation Tax (MCAN) and County Cannabis Retailers' Occupation Tax (CCAN) rates took effect from ordinances received by IDOR on or before 4/1/2024.

SEPTEMBER 2024

Collections of \$44.7M, the second highest month on record for adult use cannabis.

NOVEMBER 2024

Issued Informational Bulletin FY2024-09 to notify dispensaries of MCAN and CCAN rates effective 1/1/2025.

OCTOBER 2024

First disbursement of MCAN and CCAN collected from rates taking effect in July 2024.

DECEMBER 2024

Collections of \$45.3M, the highest month on record for adult use cannabis

JANUARY 2025

MCAN and CCAN rates took effect from ordinances received by IDOR on or before 10/1/2024.

APRII 2025

First disbursement of MCAN and CCAN collected from rates taking effect in January 2025.

MAY 2025

Issued Informational Bulletin FY2025-20 to notify dispensaries of MCAN and CCAN rates effective 7/1/2025.

FY2026 GOALS

Summary

In FY2026, IDOR will continue to conduct audits utilizing the Audit Manager. IDOR completed 9 audits in FY2025 and seeks to build on the results and lessons learned.

IDOR will continue to coordinate with the Department of Financial and Professional Regulation and Department of Agriculture on tax clearance checks, as well as sharing of information related to newly licensed cannabis businesses to ensure timely registration with IDOR.

IDOR FY2026 Goals

- 1. Conduct audits on select cannabis taxpayers and continue to perfect the audit program.
- 2. Perform tax clearance checks and register any newly licensed cannabis businesses.
- 3. Identify new opportunities for utilizing reporting and analytics features of Metrc seed-to-sale system to enhance tax administration.

IDOR FY2026 Essential Projects

- 1. Finalize implementation of enhanced reporting in Metrc seed-to-sale system and train IDOR staff on its use.
- 2. Continue development of and use of audit inquiry program for cannabis taxpayers which have smaller issues that can be handled without establishing a formal audit.

IDOR FY2026 Metrics

IDOR will continue the audit program and initiate 6-10 audits of cannabis businesses during FY2026. IDOR will track the results of those audits as they are completed.

IDOR will contact newly licensed cannabis businesses and coordinate with them to ensure registration with IDOR occurs before they begin to make taxable sales.

KEY DATA POINTS

FY2025 Revenue and Transfers

The Department of Revenue collects tax and assessment payments from adult use cannabis cultivators, craft growers, and dispensaries.

\$451,868,765

total adult use cannabis revenue in FY2023

\$457,284,195

Cannabis Cultivation Privilege Tax, Cannabis Purchaser Excise Tax, and Medical Cannabis Cultivation Privilege Tax Collections in FY2025

In addition to the Purchaser Excise Tax, state and local sales taxes apply to cannabis. Medical cannabis is taxed at the qualifying food and drug sales tax rate applicable in the jurisdiction in which the dispensary is located. Adult-use cannabis is taxed at the general merchandise sales tax rate applicable in the jurisdiction in which the dispensary is located, plus any additional Municipal and County Cannabis Retailers' Occupation Taxes.

IDOR collects payments owed based on these returns, along with any related assessments issued.

Cannabis Purchaser Excise Tax Reported Due in FY2025

For filing periods due in FY2025, cannabis dispensaries reported \$229,843,847 in Cannabis Purchaser Excise Tax due.

\$67,137,345

tax reported due on products with adjusted THC < 35% in FY2025

\$122,614,416

tax reported due on products with adjusted THC \geq 35% in FY2025

\$39,846,239

tax reported due on cannabis-infused products in FY2025

\$245,847

excess tax reported due in FY2025

¹⁴ The number of assessments collected reflects payment vouchers received for previously assessed liabilities. Taxpayers can pay assessments electronically or offset assessed liabilities using available credits.

Cannabis Business Registrations

IDOR is notified when the Department of Agriculture or Department of Financial and Professional Regulation issue a new cannabis business license. Upon notification, IDOR contacts the licensee to ensure they are properly registered to collect taxes prior to making taxable sales. Licensees register with IDOR electronically using the department's MyTax Illinois system.

29 businesses	62 businesses	52 businesses
registered with IDOR in FY2023	registered with IDOR in FY2024	registered with IDOR in FY2025
33 locations	70 locations	96 locations
registered or updated	registered or updated	registered or updated

Tax Compliance Checks of Applicants and Licensees

IDOR provides a tax compliance verification portal to the Department of Agriculture and Department of Financial and Professional Regulation to utilize when verifying tax compliance of applicants and licensees. In FY2022, IDOR also established a process to allow for bulk compliance checks, allowing

these checks to be performed using a file exchange, rather than individually through the verification portal. Tax compliance checks performed via the portal and through the bulk file process are counted in the system-initiated tax compliance checks counts below.

When a principal officer, board member, or person having a financial or voting interest of 5% or greater in a license is found to be delinquent in filing and/or paying their taxes with the State of Illinois, they are referred to IDOR for assistance in resolving the issue and obtaining a tax clearance letter. Any compliance checks performed by IDOR staff related to these referrals are counted in the manual tax compliance checks counts below.

Municipal and County Cannabis Retailers' Occupation Taxes

Adult-use cannabis is subject to the 6.25% State Retailers' Occupation Tax as well as other locally imposed sales taxes. Counties may also impose, by ordinance, a County Cannabis Retailers' Occupation Tax (CCAN) and municipalities may impose, by ordinance, a Municipal Cannabis Retailers' Occupation Tax (MCAN) on adult use cannabis. The Municipal and County Cannabis Retailers' Occupation Taxes initially took effect on July 1, 2020.

The County Cannabis Retailers' Occupation Tax may be imposed in ¼ percent increments on retail sales of adult use cannabis at the following rates:

- In unincorporated areas of the county, the rate may not exceed 3.75%.
- In a municipality located in the county, the rate may not exceed 3%.

The Municipal Cannabis Retailers' Occupation Tax may be imposed in ¼ percent increments on retail sales of adult use cannabis at a rate not to exceed 3%.

Counties and municipalities imposing these taxes must file the ordinance on or before April 1 for the imposition, discontinuation, or tax rate change to take effect July 1, or on or before October 1 for the imposition, discontinuation, or tax rate change to take effect January 1 of the following year.

IDOR collects these taxes on behalf of counties and municipalities and disburses collected amounts, less an administrative fee, to the local governments each month.

2025 ANNUAL CANNABIS REPORT

Illinois Department of Commerce and Economic Opportunity

Rebecca Estrada | Office of Economic Equity & Empowerment

SUMMARY

Illinois is committed to empowering Social Equity Applicants not just to hold licenses, but also to thrive as successful, well-supported entrepreneurs with access to the tools and resources needed to compete and grow in the cannabis industry."

-Office of Economic Equity & Empowerment, DCEO

The Department of Commerce and Economic Opportunity (DCEO) leads two central components of Illinois' Cannabis Social Equity Program: The Cannabis Social Equity Loan Program and the Cannabis Social Equity Technical Assistance (TA) Program.

Through the Cannabis Social Equity Loan Program, funded via the Cannabis Business Development Fund (CBDF), DCEO has awarded over \$22.6 million in Direct Forgivable Loans (DFLs) to support qualified social equity dispensary, craft grower, infuser, and transporter licensees across the state.

- In Round 1, DCEO disbursed \$18.3 million to support 33 social equity loan recipients, including craft growers, infusers, and transporters. Notably, 80% of these loans were awarded to Minority- and Women-Owned Business Enterprises (M/WBEs), representing approximately 84% of the total loan dollars awarded in that round.
- For Round 2, DCEO has disbursed \$4.32 million to 18 social equity loan applicants (adult-use dispensing organizations). These applicants were selected based on criteria including social equity status, financial need, financial resources, and progress toward operational readiness.
- On August 11, 2025, DCEO launched Round 3 of the DFL Program, allocating up to \$40 million
 to support all social equity license types, including adult-use dispensing organizations, craft
 growers, infusers, and transporters. The application window will close on Thursday,
 September 25, 2025. DCEO is currently hosting informational webinars and technical
 assistance sessions to support applicants and stakeholders during the application period.

In 2026, DCEO will issue Round 2 of the Cannabis Social Equity Technical Assistance (TA) Program, prioritizing post-license support for qualified Social Equity Applicants (SEAs) across Illinois. This round of TA will be structured to deliver targeted, high-impact training, legal services, and operational guidance to help SEAs successfully launch, operate, and sustain compliant cannabis business establishments. By building capacity in key areas such as regulatory compliance, financial readiness, and business planning, this TA round will provide access to the tools and resources needed for SEAs to compete and grow in Illinois' regulated cannabis industry.

2025 ACCOMPLISHMENTS

FEBRUARY 2025

18 cash requests were processed, releasing funds totaling \$4.32 million for DFL Round 2.

APRIL 2025

Began working with Baker Tilly to revise the Progress & Expense Report for borrowers to streamline the reporting process.

JUNE 2025

Started the draft of Round 3 application and materials.

AUGUST 2025

Application window for DFL Round 3 opened 8/11/2025.

OCTOBER 2025

Intake of loan applications received for DFL Round 3 in process.

DECEMBER 2025

Finalizing DFL Round 3 loan recipients.

JANUARY 2025

Processed lending agreements through internal systems to ensure execution at Illinois Office of Comptroller.

MARCH 2025

DCEO continues to review and monitor submissions from Round 1 program participants, this is ongoing.

MAY 2025

DCEO hosted a Technical Assistance session for Round 2 borrowers to walk through the revised reporting template.

JULY 2025

Director of Loan & Grants hired.

Finalized application materials for DFL Round 3.

SEPTEMBER 2025

Application window for DFL Round 3 closes 09/25/2025.

NOVEMBER 2025

Review of DFL Round 3 loan applications still in process.

2026 GOALS

- 1. Deploy funding to all DFL Round 3 loan recipients.
- 2. Release a Cannabis Social Equity Technical Assistance (TA) Notice of Funding Opportunity (NOFO).
- 3. Evaluate status of CBDF and determine plans for future programming and support.

DCEO FY2026 Goals

- 1. Shorten the intake processing time for Round 3 DFL applications to improve efficiency.
- 2. Reduce the turnaround time between the application close and award notification for Round 3 DFL applications.
- 3. Continue to increase staffing within OE3 to support the expanding cannabis programs.

DCEO FY2026 Essential Projects

- 1. Deploy funding to all DFL Round 3 loan recipients.
- 2. Release Cannabis TA Program NOFO, emphasizing support for social equity licensees.
- 3. Develop a strategic plan to provide ongoing support for social equity applicants.

DCEO FY2026Metric Goals

Secure
Technical
Assistance
for all social
equity
licensees

Deploy funding to all Round 3 DFL loan recipients

Increase number of DFL loans by 10%-20%

KEY DATA POINTS

- Round 1 of the Direct Forgivable Loan (DFL) Program saw a total of \$18.3 million disbursed to 33 social equity craft growers, infusers, and transporters.
 - 2 craft growers, 1 infuser and 1 transporter DFL have been forgiven to date totaling \$2.2 million.
- 2. Round 2 of the DFL program has currently allocated \$4.32 million to 18 social equity dispensaries; 3 loans are in process pending submittal of all outstanding documentation.
- 3. Round 3 of the DFL was open to all qualified social equity licensees, with a focus on timely processing and funding.

DCEO FY2025 Metrics

\$ \$18.3M | \$ \$4.3M | Final funding amount TBD for 2023

Technical Assistance

DCEO will launch a second round of the Cannabis Social Equity Technical Assistance (TA) Program in 2026 to deliver comprehensive education, specialized training, and legal services to qualified Social Equity Applicants (SEAs) across Illinois. This round will work to strengthen SEAs' knowledge and operational capacity to establish and sustain compliant cannabis business establishments under a social equity license in the state. In addition to serving any new SEAs, the TA will support current qualified social equity licensees by strengthening business operations, ensuring regulatory compliance, and promoting long-term sustainability. Expanded services will include enhanced legal support, targeted post-license assistance, and loan readiness guidance, providing access to the tools and resources needed to complete and grow in the Illinois cannabis industry.

Direct Forgivable Loan (DFL) Program (Rounds 1-3)

Round 1

A total of 33 Direct Forgivable Loans were provided to craft growers, infusers, and transporters in Round 1. The total DFL amount disbursed via Round 1 was \$18.3 million. Three licensees were selected but decided not to pursue a DFL, and one sold their license prior to launch of the DFL program.

Round 2

18 Direct Forgivable Loans, totaling \$4.32 million have been awarded to dispensaries in Round 2. The Department initially approved 23 direct forgivable loans to qualified borrowers, however:

- DCEO denied one loan application that had previously been approved. Final compliance checks revealed that the licensee applied for the loan under an entity different from the one holding the license, as the licensee is transferring its license to a non-social equity owner.
- One borrower rescinded their loan.
- 3 loans are currently navigating the approval process given the submission of all required documentation.

<u>Click here</u> to interactive map that displays the license types by county. (https://public.data.illinois.gov/#/site/Public/views/DCEOMap/TotalRound1?:iid=1)

Round 3

Round 3 of the DFL is open to all qualified social equity cannabis applicants (craft growers, infusers, transporters, and adult-use dispensing organizations). The application window for Round 3 opened on Monday, August 11, 2025, and will close on Thursday, September 25, 2025 at 5:00pm CDT. DCEO is currently conducting informational and technical assistance webinars to provide support to potential applicants and stakeholders.

Participation Loan Program (PLP)

\$3,600,000

in loans issued in FY 2023

5

cannabis businesses awarded loans in FY 2023

In addition to the Direct Forgivable Loan Program, DCEO offered a Participation Loan Program (PLP) that partnered Cannabis Business Development Fund lending with private lenders. The program was phased out in 2023, but DCEO issued \$3.6 million in loans (\$2.55 million was DCEO funding, \$1.05 million was private loans) through the PLP to three craft growers, one infuser, and one transporter.

FUNDING USAGE

Fund	Fiscal Year	Appropriation	Expenditures (as of 08/14/2025)	Balance of Appropriation
0912	FY25	\$1,741,300	\$983,870	\$757,430
0898	FY25	\$76,000,000	\$4,320,000	\$71,680,000
0912	FY26	\$2,060,100	\$107,590	\$1,952,510
0898	FY26	\$76,000,000	\$	\$76,000,000

0912 - Cannabis Regulation Fund 0898 - Cannabis Business Development Fund

UPDATES AND INITIATIVES

Summary of FY2025 Updates

Spring '25 legislative session adjourned May 31, 2025, without a resolution to needed improvements and protections under the statutory framework of DCEO's cannabis social equity programming. The DCEO statutory changes are found in standalone legislation - HB2343 (Rep. Evans) and SB1520 (Rep. Lightford). This language was adopted onto SB0090 (Rep. Ford) along with cannabis-related provisions from other State Agencies. Despite crossagency collaboration and advocacy for this needed legislative change, SB0090 did not pass the General Assembly, and the Department is working in conjunction with CROO's legislative team to advocate for its passage in Veto '25 or Spring '26 legislative session.

Summary of FY2025 Initiatives

DCEO will continue to pursue legislative and corresponding administrative rule changes to further facilitate the efficient disbursement of funds in future funding opportunities and to allow for new funding models to incentivize private support for social equity licensees. These changes include a statutory and conforming Administrative Code change to affirmatively allow for the use of a lottery system to award funds and forgiveness of loans under DCEO's cannabis social equity programming.

2025 ANNUAL CANNABIS REPORT

Illinois Department of Human Services

Secretary Dulce M. Quintero | Illinois Department of Human Services
Director David Albert | IDHS Division of Behavioral Health & Recovery
Behavioral Health Advisor Donell Barnett | IDHS Division of Behavioral Health & Recovery

SUMMARY

"

I celebrate the ongoing work and commitment leading to the expansion of the cannabis-funded programs that make our communities and entire state better.

This year, knowing the immense power of looking at mental health and recovery from substance use disorder holistically – we combined our previous Division of Substance Use Prevention and Recovery and Division of Mental Health into the new, integrated Division of Behavioral Health & Recovery.

Our commitment to ongoing progress is clear. As we continue to follow best practices and envision new ways of support, we carry forth our dedication to excellent and equitable service. We could do not it alone, and I am immensely grateful for our community partners and the organizations who work alongside us."

- Secretary Dulce Quintero

The Illinois Cannabis Regulation and Tax Act (CRTA) is a landmark law that legalized adult use of cannabis for adults aged 21 and over in Illinois. The Act, signed into law on June 25, 2019, made Illinois the first state in the United States to establish a comprehensive legal framework for both the sale and regulation of adult-use cannabis through legislation. The CRTA represents a significant shift in Illinois drug policy, emphasizing equity-first economic opportunity and social justice objectives.

The Cannabis Regulation and Tax Act directs 20% of the Cannabis Regulation Fund, which receives adult-use cannabis taxes, to the Illinois Department of Human Services (IDHS) to address mental health and substance use, including treatment, education, and prevention. Additionally, the Act directs 2% of the fund to IDHS to develop and administer public education campaigns and data collection and analysis to assess the public health impacts of legalizing adult-use cannabis.

The revenue generated by the CRTA plays a crucial role in furthering IDHS's mission. These funds allow for more robust prevention, treatment, and recovery services. The programs established by IDHS through CRTA tax revenue are a testament to the value IDHS places on the well-being of Illinois' communities, especially those that have been devastated by budget cuts, the War on Drugs, structural racism, violence, and economic despair.

IDHS's Division of Behavioral Health & Recovery (DBHR), which was formed through the integration of the former Division of Substance Use Prevention and Recovery (SUPR) and Division of Mental Health (DMH), is committed to supporting a comprehensive behavioral health care system. DBHR manages IDHS's CRTA funds and implements several critical aspects of the CRTA, including harm reduction, recovery, treatment, resilience activities, and research. In doing so, IDHS furthers its mission to serve Illinoisans and realizes the CRTA's objectives.

In concert with the Cannabis Regulation Oversight Office, the Illinois Department of Human Services publishes this annual cannabis report on IDHS's progress in implementing its responsibilities under the Cannabis Regulation and Tax Act.

IDHS uses the following guiding principles to direct CRTA work and planning:

- 1. Address racial and social inequity.
- 2. **Prioritize** those communities and individuals disproportionately impacted by the War on Drugs.
- 3. **Catalyze** innovation and fuel transformation.
- 4. Align with the intent of the law.
- 5. **Advance** the right to quality behavioral health care for all residents.

IDHS centers CRTA implementation through an equity lens that includes:

- 1. **Recognizing** communities have been disproportionally affected by structural racism, stigma, and systems of oppression.
- 2. **Listening** to communities, using their definitions of justice and fairness, and involving them in decision-making.
- 3. **Building** on the strength of communities by leveraging their social and cultural capital to redress health and social inequities.

IDHS's initiatives under the CRTA support system expansion in six broad program areas:

- Workforce programs to increase and diversify the behavioral health workforce by providing ladders of opportunity and ensuring the workforce has the best preparation possible to serve all communities.
- 2. **Crisis** programs that strengthen the response for people facing a behavioral health crisis by building a "no wrong door" approach to accessing care and services. This approach ensures that individuals in crisis can access the care they need from any entry point in the system without fear of discrimination or barriers.
- 3. **Opioid Crisis Response** programs to support a whole-health model approach to reduce the overdose risk of polysubstance users. Polysubstance use occurs when two or more drugs are taken together, either intentionally or unintentionally, increasing the risk of accidental poisoning.
- 4. **Community Support and Healing** programs that support communities by adopting approaches centered on social determinants and bringing about healing, including criminal justice system deflection.
- 5. **Public Awareness** programs to educate the public about the dangers of substance use and deliver effective messaging to targeted communities.
- 6. **Research and Program Evaluation** programs to evaluate cannabis-funded initiatives by ensuring a continuous learning approach built on good stewardship and accountability principles. This approach involves regular data collection, analysis, and feedback loops to ensure the initiatives are effective and responsive to the community's needs.

KEY DATA POINTS

\$46,709,000	\$ 81,767,270	\$79,304,689
Total service agreements in FY2023	Total service agreements in FY2024	Total service agreements in FY2025

Per the Cannabis Regulation and Tax Act, IDHS receives appropriated funds for two general areas, the Community Services Fund (Fund 509) and the Drug Treatment Fund (Fund 368). The following notes appropriated funds and related spending amounts. Across the Community Services and Drug Treatment funds, IDHS spent more than 95% of funds on grants and contracts to support program areas throughout the state.

FY2025 PROGRAM HIGHLIGHTS

Workforce

CRSS Success

The Certified Recovery Support Specialist (CRSS) Success Program is designed to support students with lived experience of mental health or substance use recovery to complete all requirements necessary to obtain either the CRSS or Certified Peer Recovery Specialist (CPRS) credentials and enter the behavioral health workforce.

Key Highlights:

- Classroom component: Complete all the necessary education hours free of charge.
- Practical experience/internship: Select from numerous options of human service organizations
 to complete the required internship hours. Stipends are available to support living expenses
 while completing an unpaid internship.
- **Practical support:** Access a wide variety of practical supports, including transportation, tech needs, wellness support, and more.
- National perspective: Peer recovery support is one of the fastest-growing aspects of the behavioral health workforce

Students Enrolled in Fall 2025	Students Who Have Completed the Program

CADC Success

IDHS/SUPR, in partnership with the Illinois Certification Board (ICB), launched the Certified Alcohol and Other Drug Counselor (CADC) Workforce Expansion Program in 2023. The program aims to increase the number of trained professional substance use counselors entering and being retained in the workforce in Illinois. The broader goals are to mitigate workforce shortages and address the ongoing overdose crisis and increased behavioral health needs of Illinoisians. The CADC workforce expansion program provides scholarships, internship stipends, and wraparound support for individuals seeking CADC certification. Annual workforce data reveal a 48% increase in new applicants in 2025 as compared to 2024, demonstrating steady growth in the number of new CADCs entering the behavioral health workforce field. As of 2025, the program has also expanded and is now offered at nine CADC training programs across the state.

Serve Illinois

With support from the Community Service Fund and IDHS Cannabis funds, the Serve Illinois Commission funds over 23 AmeriCorps programs across the state with hundreds of AmeriCorps Member positions. AmeriCorps, often described as "the domestic Peace Corps," is a national service program that involves people in "getting things done." Due to the additional support, AmeriCorpsfunded organizations saw an increased percentage in retention and completion for individuals fulfilling their "service year" in local communities. The program develops a lifelong ethic of service among the Members.

- AmeriCorps Members provide a variety of services as determined by local needs, including tutoring and mentoring youth, teaching health education classes, and leading community volunteers in service.
- Full-time AmeriCorps Members provide 1,700 hours of service during a year. Less than full-time Member positions are also available at some programs.
- Full-time AmeriCorps Members receive a small living stipend while serving. Living stipends may also be available for less than full-time Members.
- Upon completion of their service, Members receive an Education Award that can be used to pay qualified student loans or attend an institution of higher education.

(New AmeriCorps members at Sinai Health Systems taking the AmeriCorps Pledge to serving America, strengthening communities, taking action, seeking common ground, perseverance, getting things done, and commitment.)

Behavioral Health Workforce Center

The Illinois Behavioral Health Workforce Center is a joint initiative of IDHS and the Illinois Board of Higher Education (IBHE), as established in the Health and Human Service Reform Act (Public Act 102-0004), designed to address the workforce shortage in the behavioral health system of care. Using a hub and spoke or consortium model comprised of academic institutions that serve rural, as well as small and large urban areas of the State, the Center will increase access to effective services through coordinated and innovative initiatives to recruit, educate, and retain professionals in behavioral health.

Key Highlights:

- Retention & Workforce Engagement Hosted a three-part retention event series with 281 providers in attendance; partnered with the Illinois Certification Board to host three statewide Recovery Support Specialist events with 252 attendees.
- Training & Professional Development Launched 12 asynchronous courses on the IL BHWC
 Training page, reaching 741 learners; piloted the Integrated Care Mentoring Program with four
 "Career Conversations" sessions; delivered Supervision Learning Collaboratives and training for
 80 participants, with a fourth asynchronous module in development.
- **Implementation Support** Selected agencies for additional cohorts of training and implementation support in solution-focused brief therapy (128 trainees) and an evidence-based parenting program (42 staff), with ongoing implementation support and data analysis.
- **Research & Data Collection** Developed a statewide Behavioral Health Workforce Data Report to provide a baseline for BHWC data collection and research.
- Partnerships & Pilots Convened a BHWC Strategic Planning Committee to define behavioral health workforce needs and developed a 3-year plan to build the workforce needed for the future. Convened 5 BHWC Project Teams, made up of 88 partner organizations statewide to identify gaps in the behavioral health workforce and developed recommendations to address the challenges in each area.

Behavioral Health Crisis Services

The Department of Human Services (DHS) continues to build a Unified Crisis Continuum (UCC) for those facing behavioral health challenges alongside our partners at the Illinois Department of Healthcare and Family Services (HFS). Through our UCC work, DHS aims to provide every resident with someone to contact, someone to respond, and somewhere safe to go should they experience a behavioral health crisis. In doing so, DHS and our providers ensure help seekers receive the right resource at the right time, and reduce the chances of an ER visit, law enforcement involvement, jail, or prison. To continue building this continuum, in FY25, IDHS partially or fully funded the 988 Suicide and Crisis Lifeline and Mobile Crisis Response Teams, Living Rooms, and Crisis Residential facilities. DHS and HFS staff are working together closely to coordinate these programs with the crisis programs funded and regulated by HFS and are working towards a truly unified system.

Additionally, DHS and our providers are in the process of fully implementing the Community Emergency Systems and Supports Act (CESSA), which requires Illinois to provide access to non-law enforcement behavioral health support via 911 for all Illinoisans by July 1, 2027. In FY25, DHS worked with the 9-1-1 Statewide Administrator to stand up CESSA pilots in 19 communities and plan for statewide expansion in FY26 and FY27.

COMMUNITY SUPPORT AND HEALING

Statewide Deflection

The Statewide Deflection Initiative is a collaborative effort across state agencies that includes the Department of Human Services (IDHS), Illinois State Police (ISP), Illinois Criminal Justice Information Authority (ICJIA), Illinois Department of Veterans Affairs (IDVA), Illinois Department of Public Health (IDPH), and the University of Illinois Champaign - Urbana. Deflection is a collaborative intervention that connects public safety and public health systems to create community-based pathways to treatment and other services to address social determinants of health without entry into the legal system. Deflection provides law enforcement with another option besides arrest for individuals they encounter. In FY25, the Statewide Deflection continued to partner with ISP across the state, as well as working more closely with local law enforcement agencies to increase the capacity of the Statewide Initiative to address the persistent concern of substance use and misuse challenges in communities.

Back to Our Future Program

The Back to Our Future (B2OF 2.0) program is a joint effort between the DHS Office of Firearm Violence Prevention (OFVP), Metropolitan Family Services (MFS), and Chicago Public Schools (CPS). This initiative focuses on youth (ages 14-21) who have been disengaged from school for more than three months and who live in communities most impacted by violence, such as Englewood, Lawndale, Austin/Garfield Park, and Little Village.

Key elements include:

- Relentless outreach and engagement by community partners through calling, texting, home visits, and showing up in spaces where youth frequent and feel comfortable (parks, basketball courts, neighborhood hangouts) and using peers as trusted messengers.
- Wraparound services such as mentoring, behavioral health support, and soft-skills training, offering practical and immediate help (jobs and mental health supports), and maintaining contact with youth even after setbacks.
- Re-engagement in education or workforce pathways, with CPS coordinating school re-entry and community mentors providing sustained support.

The B2OF 2.0 model acknowledges the intersection between disengagement from school, exposure to community violence, and the likelihood of youth carrying firearms. By surrounding these young people with trusted adults, mental health services, and career pathways, we aim to break the cycle of disengagement and firearm involvement.

RESEARCH AND EVALUATION

Cannabis Research Institute

In July 2024, IDHS launched the Cannabis Research Institute (CRI), a science-driven institute for research and innovation. The vision of the CRI is to be an unbiased, rigorous, equity-centric research center that will advance public knowledge about all aspects of cannabis and hemp, from agriculture to medical and health effects to social outcomes.

Year 1 Accomplishments

- Hosted inaugural cohort of undergraduate lab interns in pilot STEAM initiative.
- Held first community engagement listening session.
- Launched CRI newsletter: From Seed to Social Impact.
- Secured hemp cultivation license from the IL Department of Agriculture.

Year 2 Focus

- Community engagement and community-guided research.
- Developing experiential learning opportunities.
- Exploring research on non-intoxicating aspects of hemp.
- Expanding laboratory capacity.
- Disseminate and amplify unbiased information.

Public Education Campaign

Under the CRTA, IDHS receives 2% of all adult-use cannabis tax revenue annually, to be used for:

"(i) developing and administering a scientifically and medically accurate public education campaign educating youth and adults about the health and safety risks of alcohol, tobacco, illegal drug use (including prescription drugs), and cannabis, including use by pregnant women; and (ii) data collection and analysis of the public health impacts of legalizing the adult-use of cannabis."

In response to Illinois' legalization of adult-use cannabis, IDHS launched the phase 2 Public Awareness Campaign on Substance Use and Supports (PACSS). The PACSS program is fighting back against the stigma, harms, and misuse of substances. Over the past year, four Cannabis funded organizations across the State of Illinois have utilized a range of campaign tools from stickers and websites to multilingual social media influencers, reaching their target audiences in innovative and meaningful ways.

In addition to the media tools listed above, billboards, talking kits, stories of resilience and bravery, website infographics, fliers, and t-shirts are all a part of outreach efforts. The focus populations of these campaigns include youth, emerging adults, pregnant and postpartum individuals, adults 21+, and the Latine community throughout Illinois. All four campaigns, approved and launched in April 2025, have developed, or are developing materials in Spanish to ensure accessibility and cultural relevance.

YMCA Chicago - Campaign Website: <u>Subtract</u> <u>Substances | Start Your Journey</u>

Highlighted Activities:

- Website launched with over 120,000 site visits to date.
- 19 YMCA locations used social media accounts to share campaign materials.
- 8 Events at YMCA locations for the campaign throughout May
- 27 YMCAs, 56 schools, five businesses, 21 youth-serving organizations, and nine other organizations engaged in May for the start of the campaign

Family Service & Mental Health Center of Cicero - PACSS Campaign Website: Marijuana for Real

Highlighted Activities:

Website launched with 11,491 unique visitors in May.

Social media influencer marketing: total reach of 304,427 people in May and a click-through rate (CTR) of 45%

- Influencer engagement sparked powerful testimonials, including:
 "Resources like this help us break generational cycles."
- "I wish I had these years ago."
- "it's important to discuss these topics."

Illinois Association for Behavioral Health –PACSS Campaign Website: Generation Lead

Highlighted Activities:

- Distributed 1,900+ posters and 800 <u>talking kits</u> (informational toolkits designed to spark conversations) to date
- Website launched with over 6,500 website visits to date.
- Instagram: 79,000 content views, 32,500 reach, and over 800 page visits.
 Facebook: 97,000 content views, 34,550 reach, and over 350-page visits.

"To have the youth not only be interested in our messaging but be a crucial voice in our campaign and assisting our launch and getting into different communities is a great success. The youth have made an impact with their involvement in our campaign by strengthening our messaging, bringing new ideas to our social media and messaging, and building relationships with communities that the youth are in." – **Program Staff**

Chicago Recovering Communities Coalition – PACSS Campaign Website:

Chicagorecovery.org/safespaces

Highlighted Activities:

- Campaign has generated a total of 2.4M+ digital banner impressions statewide and an additional 5.9M+ billboard impressions across the campaign's five IDHS regions to date.
- Finalizing "Safe Spaces" campaign materials for publication on website. Currently, over 20 stories of hope, resilience, and recovery have been submitted.

"Campaign visuals were intentionally designed to reflect younger individuals in recovery, helping the message resonate more deeply with emerging adults aged 18–25. We also launched a tailored outreach component specifically for pregnant and postpartum women diagnosed with substance use disorder (SUD), ensuring that they saw themselves reflected in campaign materials and had direct access to recovery resources relevant to their unique needs." -Program Staff

Illinois Department of Human Services Bureau of Planning and Evaluation Updated 09/2025 The following is a listing of program agreements at the start of FY25.

IDHS Cannabis-Funded Program Areas, Programs, and Funding Amounts
