

Illinois Lottery Draw Process for Adult Use Cannabis Lottery

IDFPR
Illinois Department of
Financial and Professional Regulation

This document outlines the process for the Qualifying Applicant, Social Equity Justice Involved, and Tied Applicant Lotteries. Using a specialized computer, the Illinois Lottery will conduct a drawing of all eligible applicants that will be ranked in a random order. IDFPR will use the ranking to determine who may qualify for a Conditional License.

Cannabis Lottery Process

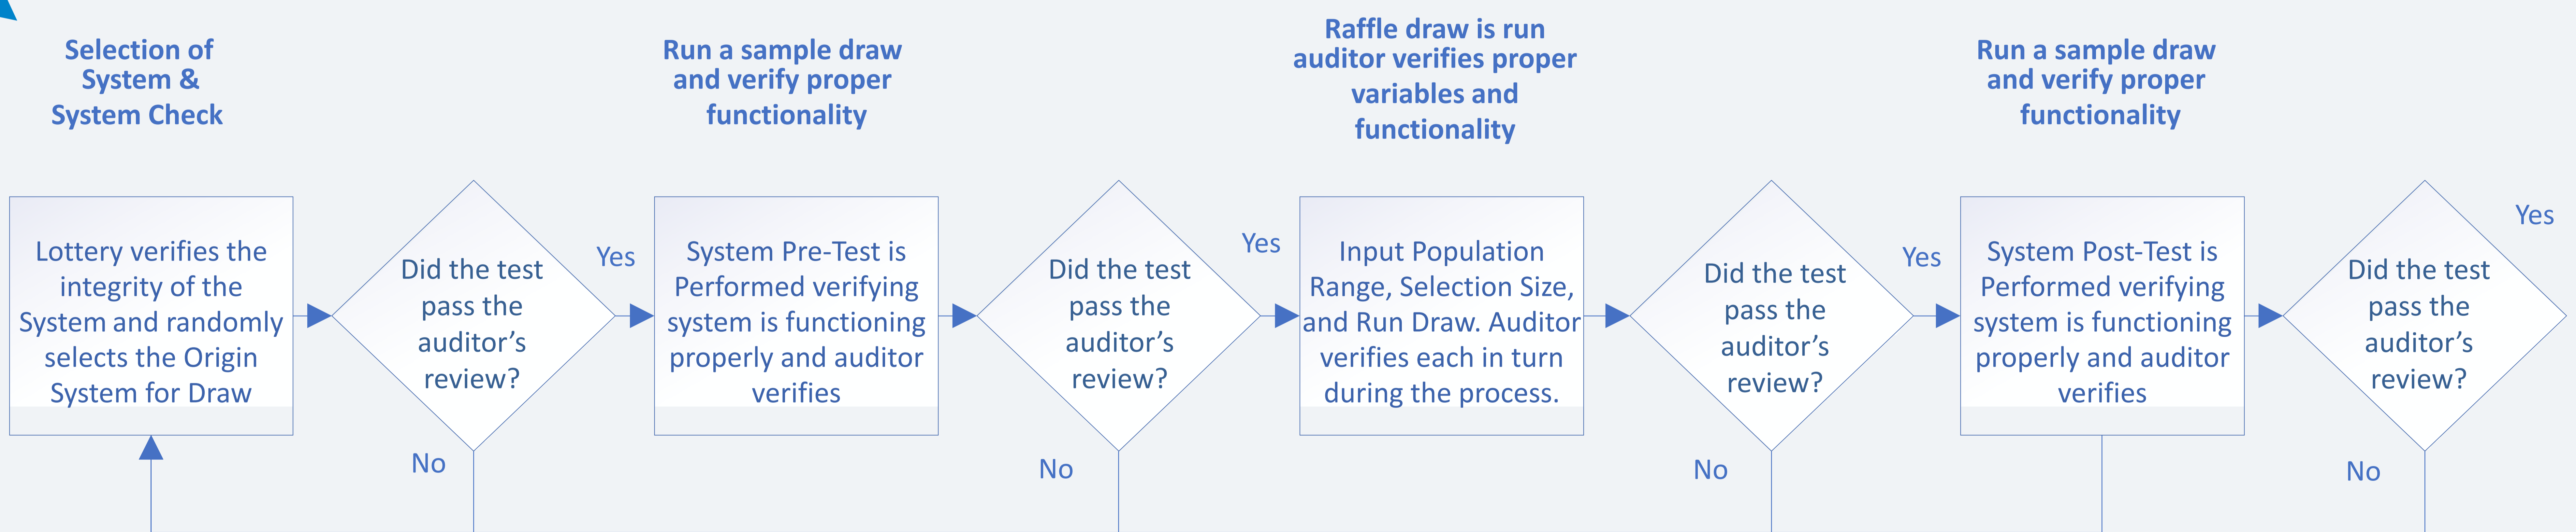

• Each eligible application is assigned a lottery number
• IDFPR publishes this list
• IDFPR provides the Lottery with the population of eligible applicants for each BLS Region.

The Illinois Lottery uses a computer-based draw process to randomly draw numbers.

See below for the Illinois Lottery's Draw Process

After the auditor verifies the drawing results, the Lottery provides the drawing results to IDFPR.

• IDFPR matches the lottery numbers drawn to the applicant names.
• IDFPR publishes the results on its website.
