UPDATED APPLICATIONS AND FORMS

In our continuing effort to provide the most relevant and user friendly documents used by candidates, we have listened to feedback and as a result, updated all paper application forms and instructions. The updated instructions will be available for use on the Department website within the next few weeks.

The application instructions for each profession have each been updated to provide the current requirements upfront and includes all necessary information to apply for exam approval or to be licensed. Our goal was to eliminate routinely received issues and questions on how to proceed.

Each packet now also has an application checklist for the candidate to complete and mail in with their application and for the PE and SE professions, there is a space on the checklist to specify if they are requesting that we use their applicable post-graduate degree for experience credit.

We are thankful for the input received and hope the changes will assist those who use them.
